Southampton is said to have been settled by a few families in 1732.

The first notice in the Northampton Records is Dec^r 11. 1732 when the town chose Ens. John Bake & Moses Lyman a committee "to lay out a highway over the branch of Manhan river at or near Pomeroy's meadow, or some of the suitable & convenient place so as to accommodate the new settlement."

1733 Dec 25. The town voted "to repay 5£ to those persons who advanced the same in recompense for divers ministers who preached at the new settlement over Manhan River."

1734. March 4. They voted to prosecute those who shall trespass on the additional grant, on the southwardly part of the township, & lyes between the old grant & Westfield bounds.
[Westfield people own the trespassers] Jonas. Dwight & John Clark agents.

1736 August 2nd Voted that 80 pounds money as shall be paid by the settlers of the new Town (as 'tis called) to the taxes (except the province tax) "shall be applied toward the support of a minister that shall preach at said place provided they shall have a minister there for the space of half a year between this and next Spring." Selectmen to compute the money & gain an order on the Town Treasurer. for the current year.

1737 Nov 18. Voted to remit to the people over Manhan at the new Town so called, their part of the town rate or tax to be made & assessed for the current year — & that their part of said tax be applied for the support of a minister of the gospel at the New Town for the current year; & the overplus if any to be applied towards the building a meeting House among them.
[First notice of meeting house. Taxes were heavy in 1736-7 and 1737-8. because Northampton was building a meeting house.

1738 Jan. 26. Joseph Baillet & Samuel Pomeroy had planked the bridge over Manhan river near Pomeroy's meadow. The question was put whether the town would pay for the plank and negatived.
Town chose a committee to agree with Samuel & Eldad Pomeroy respecting the highway lately laid through their meadow, & consider what may be a reasonable recompense.

The highway^{w^h} laid May 1737 & accepted March 1738. Laid by Selectmen. They began at Eldad Pomeroy's path that goeth southerly to Samuel & Eldad Pomeroy's bound tree so called, & then they turned westwardly on the said Hill till they came to Samuel Pomeroy's path going down the hill past his house, & then going over the brook so up the hill along near Caleb Pomeroy's house still westwardly till they come to the top of the hill; then turning something southwardly down the hill all in Samuel Pomeroy's land & then over Manhan river over the bridge that is now over the river erected by the New Town people, from the foot of the hill to the bridge in Eldad Pomeroy's land, so along where the path now goeth, all to be two rods wide.

1738 March 6. Voted "to give to the people of the new settlement over Manham, the pulpit in the old meeting house and seats together with the pews, such of them as properly belong to the town."

1738 Dec. 4 "Voted that so much money as the settlers at the new place over Manham river shall be assessed in the town rate for the current year shall be employed towards the support of the ministry or building a meeting house among them, first deducting so much as has been expended among them in highways proceeding at said place.

1739 March 5. Voted that the charge of repairing the highways in that part of the town called New Town shall be paid out of the money paid by the inhabitants who dwell there, & taken out of what they pay of the town rate.

Committee reported in favor of allowing Samuel Pomeroy 25£ & Eldad Pomeroy 8£ for land taken for the highway at Pomeroy's meadow. Negatived.

1739 Sept. 14. Second Precinct first named as such. There was clause in the warrant "whether the town would consent to setting off the new town so called by the bounds following, viz. beginning on the South side of Manham river where the country road goeth over Manham river a little above Bartlett's house, and so bounded eastwardly upon the country road till it extends southerly unto the dividing line between Northampton & Westfield & then bounded southwardly upon the line between N. & W. and then westwardly upon land belonging to the Province, and bounded northwardly upon the Long or West Division so called; all which land and the inhabitants thereon as before described, the town voted should be set off a distinct and separate precinct, that so by the consent of the general Court they might be under a capacity to carry on the worship of God among themselves."

1739 Nov. 16. Voted that the inhabitants over Manham at the new place so called be allowed so much money as they pay in the town rate the current year toward the supt. of the ministry among them & other charges.

1740 March 3. Samuel Pomeroy allowed for plank upon the bridge by his meadow, & for labor on the bridge.

Sept 16. A committee chosen to examine about the land taken from Samuel & Eldad Pomeroy for a highway in 1737, & to see what is just & right.

1741 Jan. 20. Same vote about the money of Newtown people going for preaching & other charges — as in preceding years. Town voted to pay Samuel Pomeroy 8£. 6. 8 & Eldad 1. 13. 4/ for their land taken for highway "if they will take that in full".

Paid and cleared

1742 March 1. New town people reimbursed their town rates and the same to go to defray charges among them.

1743 Jan. 11 Same vote about people at the new precinct.

Preaching

They had preaching in 1733 by several ministers. See vote.

In 1734 Mr. Joseph Ashley had 44£ for preaching at the New Town (+ for his board-
In 1735 Mr Joseph Ashley had 50£ for do. for part of 1734 and
for preaching at N.H. in Mr. Edwards absence).

The first allowance of 44£ seems to have been made in Feb. 1735, and was
doubtless for preaching in 1734.
The second allowance of 50£ was by Town at a meeting in Jan. 1736.
Of course it was for 1735.

In 1736 (in Feb. 1737) the treasurer charged the town £ 99.18.07 & £ 4.17.0
"for the use of the Newtown people for paying their ministers"

tax of 1736.7. That whole town tax was 1581.5.5.
The whole town tax of 1737.8 was £ 2248.14.9. ~~but only 48.14.0 is mentioned~~
and £ 154.8. was

The whole town tax of 1738-9 was 585.8.7. and 48.14.0 is the

4 2d Precinct

The New Town people were incorporated into 2d precinct of Northampton in the Summer of 1741, but seem not to have organized the precinct till the beginning of 1742. First precinct meeting in 1st Precinct was Feb. 1742. Samuel & Eldad Pomeroy, living on this side of Manhan river were included in the 2d precinct, as their buildings & most of their lands were south of the Long Division.

Petition of S. & E. Pomeroy. They petitioned the General Court that met May 26. 1742, to have their families & estates remain with the 1st precinct. It seems they had built & belonged to the old town, & not with those over Manhan river; they had helped build the meeting house, &c. and had not asked nor received any thing back, like those over the river. They state that of late about 30 families have settled and are about to settle at the S. W. corner of the town bounds, & have obtained an order of the Gen. Court, viz last summer, for being a precinct "and are now endeavoring to settle a minister, and have actually begun their meeting house" & have obtained a grant of the General Court for a tax of six pence per acre on all land in said precinct, &c.

The Pomeroys thought it hard that they should pay this tax and the various expenses of the new precinct. They state that they had improved & paid taxes for their lands (meaning meadow) for the space of 40 or 60 years. They pray to be freed from this tax & all other taxes of 2d precinct, & to remain with & be taxed with first precinct, as heretofore.

1742 June 1. Order of Notice to 2d precinct ordered
Aug. 10. Ebenezer Kingsley & Whitstill Strong, committee of 2d precinct acknowledged that they had been served with the petition & order of Court thereon.

1742 Dec. 10. In Council, petition was read again & the answer of the new precinct. & it was ordered that the petitioners and their estates mentioned in the petition "be sd back to the first precinct, provided first precinct allow their money the petitioners & their estates shall be rated at from time to time; to the new precinct, to be paid into the hands of their treasurer, for their benefit."

Votes regarding the Newtown — continued from 2 pag.

1743 March 7. In March 1742 a Committee was appointed to view the lands in the Additional Grant at the south end of the township and see if they can find any convenient to sequester for public use — Dr Ebnr Clark, Jona. Strong, Jona. Rust. Now Committee reported in favor of sequestering some land for the 2d precinct, and the town voted to sequester 200 acres on the back side of White Loaf Hills to the use & benefit of the 2d precinct — also to give said precinct 300 acres more of said lands to enable the people to settle a minister among them. Chose (10. Dwight, Capt John Clark, & Jona Strong to lay out the lands, & to sell the 300 acres for the use of said precinct, — all these lands to be in lieu of their proportion of the lands sequestered for the ministry in the first Precinct.

1743 Nov 21. Voted that the money raised on the people of the 2d precinct, and on Samuel & Eldad Pomeroy, be paid to the Treasurer of the 2d precinct for their benefit.

1744 Nov 8. Similar vote in regard to 2d precinct — but the highway charges in said precinct to be first deducted.

1749 Jan 16. Wood not to be cut on the additional grant, or carried off, except candle wood, with liberty from the town in town meeting. Informers chosen, 5 in number viz 3 in old precinct and 2 in new. S. Sheldon, John Clark Jr.

Town voted not to sell the additional grant, — also voted not to divide it. (reconsidered last vote.

Jan 30. Voted to divide the additional grant. Chose a committee to project a rule or method for dividing it.

Jan 30. Voted to let the 2d precinct sell the 200 acres on back side of White Loaf Hills, (which was sequestered for them, — and they have had 300 acres besides) provided they relinquish all right to land sequestered for ministry in first Precinct.

Feb 9. Land in additional Grant called about 3000 acres, having Westfield S. Springfield E. old bounds of Northampton N. running to a point — or near a point W.

Voted to divide as follows: — Polls to be estimated at 10£, & this to be added to Valuation by which the tax is made this year — & this to be the rule of determining each man's proportion of land. A nonresident who is taxed here to have his share, that is, one who has been an inhabitant. Rev J. Edwards & Rev. J. Judd to be estimated at 100£ each. Sundry persons may unite & one draw for them all.

To be highways &c.

Valuation of 2d [illegible] (by reason of the war) is very low. Committee to estimate these lands as nearly as may be according to lands in 1st precinct. What is given to 2d precinct & what is covered with water (ponds &c.).

16 Southampton.

Mrs Jerusha Sheldon, widow of Silas Sheldon and previously widow or wife of Curtis Loomis Jr. She was daughter of the first Oliver Clark, & born Sept-2. 1775. I conversed with her July 6 1854. She is almost 79

Sleighs. she thinks there was no two horse sleigh in Southampton in her younger years, & but few pungs. The latter were a kind of one horse sled - not worth much. People mostly rode to meeting on horseback. She has seen ox sleds at the meeting house on Sund ays

There were sleighs that went to Hartford & Boston with loads before she was born. She knows not what to make of this. Thinks they were a kind of horse sleds. Does not recollect of seeing them at meeting. Remembers the first regular sleigh box on S.H. Lumberboxes before.

Her father went to bed at 9 was up at Daybreak, & he wished to have his family conform.

Bread & milk was eaten by the children. Milk was scarce in the winter & they had bread & cider.

School she attended at Pomeroys meadow, below the P.M. School house - mostly. Elihu Pomeroy and Moses Clark were teachers and others. She learned to read & spell & write chiefly. — Her oldest sister went to school but 4 days — no set of them that she could attend. Mrs. S. says there was a female school only 2 summers in the neighborhood in her schooldays. Did not write in these schools, but read spelled & worked, i.e. sewed. Damaris Sprague taught.

Huckleberries were plenty on lands of Aaron & Selah Clark — not on her fathers, but some between her fathers & Geers. Parties of young people used to come from Westhampton & beyond to gather the Huckleberries — went by her father's. These were festive occasions — they went for the frolic one thinks, quite as much as for huckleberries.

Rattlesnakes were about Rattlehill, but not common in her day. She saw one in the road when a girl, & got a man who was at work, to come & kill it. The head was cut off & she another girl carried the body home in a basket. The galls were preserved; and she says other parts were called good for consumption; not eaten at her fathers. — Elihu Warner was bit by something coming over the Mt. below Pomeroys.

Waggon. She is confident there was no waggon in S.H. in her younger days.

Meeting House. The old one (demolished before 1788) had 2 sets of stairs leading into gallery on the main door, one for boys & one for girls. The new house built 1788 had the same. The pews had long seats mainly, but a few some pews; the last had pews chiefly. She thinks men & women sat together in both - not sure in the lower floor is not certain about the first.

Singing. In her younger days, Mr Judd read the psalm and then Deac. Edwards read 2 lines at a time for the singers.

Candles. She says but few candles were burnt when she was young. The great winter fires lighted the room, & when more light was wanted, & in summer pine knots were used. They always kept the pine for lights. She says they read, sewed &c by the light of pitch pine, without difficulty.

Mr Mills left some Warrants on file without copying them — the most important Warrants are so left.

There was a great carelessness in recording previous to Doct. Mather's being Clerk 1735 — or rather the Clerks did not consider it necessary to record the petty officers of the town, and some other things. Joseph Hawley, the predecessor of Mather made very short records. The March meeting 1735 is not recorded at all. Mr Hawley cut his throat the June after.

In 1736 Dr Mather recorded
8 tithingmen,
3 surveyors of ways
8 Fence Viewers in 4 divisions
6 Field Drivers

} besides the other officers. All these officers had been chosen doubtless for a long series of years before this but no record was made of them.

Same officers 1737. 8 &c. Only 7 tithingmen.

First warrant recorded 1751. [illegible] every year till 1760 when Timo Dwight Jr was chosen Town Clerk. He was more particular & systematic than his predecessors. he never added the Warrant Elijah Hunt, omitted some meetings, & never recorded. Represented also he was careless sometimes.

b. 63. Grist Mill — Lower. [N.H. Hist. p. 460 461

1742-3 Jany. Liberty was granted to Moses & Samuel Kingsley and Samuel Marshall to erect a grist mill on the Mill River against their homelots, with liberty of the strea[illegible] &c

1746 Nov. M & S. Kingsley have liberty to raise the water on their dam at the mill they are building, 7 feet high, to continue during towns pleasure

1759 March. The Mill had lately been unimproved. Com. appointed.
May. Com. Reported. It seems that they had been prosecuted by the owners of the upper mills.
The Town then voted to save the Kingsleys harmless against all Actions & demands of upper mill proprietors, Provided said Moses & Samuel keep their mill in order & do not raise the dam over 7 feet, or do not raise the water to the depth of over 7 feet.

1765. Aug. Town meeting called about suit against Kingsleys, by upper Mill Proprietors. Committee chosen, to confer with Deac. Noah Cook Capt Jona Hunt, & Ebenr Edwards, propts. of [illegible]. These proprietors had brought their action against Moses Kingsley of S.H. because since 16th Jan. 1764. his dam had set water back so as greatly to obstruct their mill. Committee advised parties to refer the subject to Capt Joseph Root of Montague, Daniel Moody of S. Hadley, and Elisha Hubbard of Hatfield. Kingsley refused & claimed indemnity from the town. Agents chosen.

1766. Town voted to pay Kingsley the damage he had recovered of the town.
" chose a committee to effect an agreement between the propts. of upper & lower Mills.

1766 May. Chose Com. to fix upon some abiding monument for height of the Dam. Allowed Kingsley to dig in the river so as to Bring the fall now below the bridge, up to his dam.

Sept.
1785. Subject of this mill-dam in town meeting. Com. appointed.
" Dec. Com. Reported that Kingsley had not raised 7 feet of water perpendicular at their dam. They measured several times found the water 7 feet 1 inch, 6.11 — 6.8 — 6.11 —
Com. chosen to confer with propts. of upper mill.

1786 March. Com. Report. Old proprietors had sued — only asked to have dam reduced to old height of 7 feet. Town proposed a reference.
all parties agreed to refer the subject about height of Dam to Maj. Lock Mr David Billings, Mr Wait of Granby, Mr Obadiah Straty of S.H. (Other name omitted by Clerk) it was Jonathan Warner of....

1791 Grist mill quarrel again up — Above committee expected.
Town complained that Kingsleys did not keep a good mill &
— 1791 Dan Pomeroy & Moses & Elias Kingsley agreed to have a new dam new water wheel, new stones, new bolts, &c.
Committee then July 21. 1791 — Reported that the dam was precisely seven feet high from the common level of the water at the time the dam was made, & that it was according to the intention of the parties. They refer to a hole in a rock above the dam. They agreed that town should pay expenses.

1791 July 22. Selectmen & propts of this mill went to hole in the rock 36 feet above the dam, & drilled deeper, & fastened in a bar of iron the top of which iron is to measure the height of the dam.

1743 Mard — Town voted to sequester 200 acres back of Whites Loaf hills for the use of the 2 precinct — also to give them 300 acres more to enable them to settle a minister — said lands in lieu of their proportion of lands sequestered for the Ministry in first Precinct.

Singular Vote. Dec 21. 1772.

"The town voted that the selectmen be desired (as occasion may from time to time require) to use their discretion in endeavoring and procuring a removal of all such persons who have no legal settlement here, as they are apprehensive may become chargeable to the town, or are likely to prove bad & troublesome inhabitants, at tho they may be members of the church here."

Taxes 1781
Collectors

1st Tax. Israel Parsons 377.13.2¼ } Collectors were paid in new currency at 1/8 for 1.
Solo. Clark 2 374.0.0 } This new emission was often depreciated
751.13.2 } only so much, 1/3 were equal to 6/. or 1/ in silver
The sum voted was 401.19.8. Add about
1/8 to it and we have the same, 751.13.2
1782. March. Orders were to pay Parsons & Clark. 13.6.4.
The pay was 19/ on 100£, but they received 19/ + 7/8 19/ = 35/7½ on 100
The new currency having apparently depreciated so much.

2 Tax Israel Parsons 278.14.10½ } They rec. 97/7¾ for collecting, March 1782

They were had 387£ old currency March 1782.

Mayor Howley reduced the 13.6.4 due to Parsons & Clark on 1st Tax to old currency by multiplying it by 40. New currency was often reduced to old in this way. The 13.6.4. would be 532.13.4. As the new currency was 1/8 for one of specie the comparison between old currency & gold & silver was 75 for 1. Take say 8 dollars in silver. add 1/8. and it is 15 dolls new currency. Multiply 15 by 40 and it makes 600 old currency, or 75 times 8 dolls.

Taxes &c

1779. There was a Continental Tax, assessed on a Valuation of 1,044.250£ in Sept 1779. 1£ paid nearly 2. or 100 paid 16/5¼ and 1,044.250 paid as put down in table — 8492.0.8½
Probably Polls were 10£ — say 3,370 polls at 10. 3405. 0 0
£12197.0.8½

This was double Tax 2 leaves back for 12196.18.10¾ called for by Treasurer July 1779 — 1780.

1779. A table for a Town Rate Aug. 1779 was made on 1 farthing to the £ or 2/. on 100£; or 20/0½ on 1000£. or 10.0.5¾ on 10 000£ or 100.4.9½ on 100.000£.

Polls were 24/7¼.
Supposing Valuation as above, 1044,250, would give — £1046.15
370 polls at 24/7 — 455.11.3
£1502.6.3

This is conjecture. Such a tax was asked. (About right. 1500£ tax was voted Aug 9 = £ 1779.)

1779 County Tax ordered Nov. 1779 — 145.8.11

1776 .... Town expenses or debts called 446..3,4
1776-7) Due for Rents, Interest &c. 95.2.6
351.0.10. to be raised.

424 polls at 4/9½ — 100.14.0
Valuation 18645.12 at 3¼d. — 250.6.10
351..0.10
So I is figured on the table, but there is some error: 424 Polls at 4/9½ is 101.1.8; 18645½ at 3¼ is 252.7.10¼

1776-7 State Tax 659.1.2 — Polls 9/- The Polls in the town tax were estimated after this, viz. as 654.1.2 : 9s :: 351£ — to 4/9½ —
Treasurer's Due in this State Tax dated Feb 7. 1777.
Tax was 601.11.2
Exp. 57.10.0
659.1.2.

1774. 35 names - only 32 with any kind of tax. Sylvester Judd, Simeon Ward and Oliver Post only names. S. Judd's property was still in possession of his father. (J.P. Tucker Collector)

Old 10 names added to 25 of 1773 are Ebenr Stearns, Jona. Clark, John Baker Jr Nathan Clark, Reuben Wright, Elisha Clapson, Oliver Post Sylvester Judd, Rufus Lyman, Asa Thayer. It is not certain that all these had establish themselves in W.H. previous to taking lists in 1774. Some perhaps had made part, or all times, without having deeded their farms until a later date. Doubts about Elisha Clapson, Nathan Clark, John Baker Jr Reuben Wright, Jona. Clark & Asa Thayer & Ebenr. Stearns - On Valuation between these are all with Westhampton people - not all so on lists.

1774 27. 1[illegible] names had 1 poll, & 5 had 2 each, so 32 had 37 polls -

44 - on first list -
7 - added to do
10 - young men at bottom
61 - It is believed that all the 61 were at Westhampton in 1776 - some perhaps came latter part of the year. Timo. Edwards may have died at Cohoes. Meadows, & John Elliot - out of town. The Sexton removed. Meriam died. John Baker not drawn. Joel Bartlett removed 1776. - John Baker should properly be added. though his name is not on the list.

Probably Jos Lyman's bill is for entertaining Ministers, &c. during the contest with Mr Edwards. he was a servant Dec 1748, & by agreement Feb 1750 was to have all for 1750, besides ... any other time he [illegible]

Noah Wright & others probably had spent time and made journeys on the contest

Maybe error in Jos Lyman for too much & Mr Edwards not enough.

In lawful currency 6/- to the dollar.

Remarks on 1746-7 Schools

Board of Schoolmasters is here noticed for the first time — previous to Mr Taylor they had all boarded themselves. The system was now changed, probably in consequence of the rapid depreciation of money. Mr Taylor left in April 1747 having kept about 9 months. Eleazar King kept the Great School 16 days, and again 6 weeks, in 1746-1747. After Mr Taylor left, there were only 1½. 2¼ & 1½ months school previous to 1748. Enoch Lyman kept on Plain & Samuel Edwards in South Street.

Oliver Warner born 1780 says he went to school here some when a boy, to Master Silus King, W.; to Nathaniel Edwards next and finally to a Denison. Remembers no other teachers who instructed him. He went first to Brick School house & then to the large new wooden one. He says they did not stand together, but the brick one was demolished & in the other was built. (New one built 1791. see N. H. 3. p. 69
Warner did not probably attend school after about 1792 or 93.
He says he had a Webster's Spelling book & Third part. There was reading, spelling & cyphering in school (and they wrote ~~perhaps~~ in the lower school, and in the other.
No grammar nor geography.
N. H. 11. 170 They learned pieces from the Third part & elsewhere - he spoke a piece, say about 1790. They also learned some dialogues, from the Third part. These things became more common after the Columbian Orator was published.
No girls went to ~~private~~ schools in Mr. Warner's younger days, nor in Mrs. Warners. Not there were private female schools, even among farmers.
Mrs W. went to School to Elisha Bridgman's wife (not Sibil) when only 4 or 5 years old at her house in Westhampton. She took care of her family & taught the little children of the neighborhood. Emilma Clark, daughter of Gideon taught school at the house of Mrs. Warner's father, at Horse Mountain, when she was 14 years old.
Clemence taught a school. Mrs. Warners mother (born 1766) went to school to her with others

Mr Stoddards account of Schools. Misc. 80. 177.

N.H. 1. 475. Eleazar Woods æt. 81, 1st School under Titus King in old Brick School house.

1. 115. Mr Tappan's account of old School houses. & girls admittance to public schools.

Widow of Israel Fenner. (Ruth Wright. she was born 1781) (May 4. 1852) says her sister Martha, before she married Simon Goodman, kept school sometime in an old house on the plain opposite Mr Lane's (she thinks there was an old Phinney house.) This was a private school for girls. She first went to school there, when 6 or 7 years old. Girls learned to read & spell, larger ones wrote; and all had to work. Much sewing done. indeed this was one of the principal exercises.

She says that when Joel Wright kept school in Townsend & Grammar School, after his boys school was out he had a class of girls that came to the school house. She was one of these.

She says she went to school to Mr Lyman in a school in the school house - a girls school when she was 9 years old 1790 or 91); she thinks it was a public school but she must be mistaken. She mentions a Doctor* somebody who kept a ladies school - & a Sally Hill who kept a girls' school - & on the whole, schools were plenty for girls when she was young; but only boys attended town schools, I think.

* Probably Willard. see p 383.

Eleazer King by born 1769. says (May 6. 1852) that he went to school to Titus King. he tells the old stories about the inquiry as to killing bees, & as to hasty pudding. Titus was odd. King did not. He lived in South Street; & went to school in winter to Nath. Edwards; sometimes came to school to King in the summer. He read & spelt in summer. He thinks the younger scholars that attended in summer did not write nor cipher. Those were done by larger scholars in winter. He had Psalter sometimes a Testament, Dilworths Spelling Book. Catechism was learned on Saturday from the primer. He says Master King used to scratch some of the scholars, through the crack of the door, pestanding behind the door, as they came in for play. No girls went to school to town schools. He says Haynes King by had 2 daughtes that kept private female schools. One was Mrs. Stackwealths, later.

Mrs Israel Dawson, born in 1790 says (May 11. 1852) that she went to private schools when young; She remembers 5 or 6 females who taught private schools at their own houses, or some hired room; not in school house. She thinks she was about 12 year old before the town allowed girls ~~attend girls~~ to attend town schools and then only those between 10 & 14 years old (I think she refers to regulations of 1802 see 57st page. She thinks a Mr Lee was the first teacher of a public school that she attended about 1802. He taught girls in upper room & another taught boys in lower room. There were then 4 Rooms in old School house - 2 below of which one was filled with wood, & 2 above, all with fire places.

Northampton Schools.

Widow of Wm Butler (born 1773 & came to N.H. 1794) says she found that girls did not attend public schools in N.H. though they did in Pittsfield. She has heard Mr. Shepherd argue against female town schools & she opposed them. He said their mothers could teach them to read the bible & make a pudding, & intimated that nothing else was necessary. Mr Blackman had 6 daughters and no sons, & advocated female schools strenuously. (May 14 1852

Miss 10, 172 Mrs. Butler taught school in Pittsfield, and at a later period taught small scholars at a private school in N.H. many years in her own house.

Widow Sarah King (widow of Silas, born 1782.) says she went to school to Mr Hickman in upper room of the School House when 9 or 10 years old as near as she can remember. It was a female school - no boys there. Girls attended from the most respectable families. They read, spelt, wrote, &c She supposes it was a public school, but she must be mistaken. (See Mrs. Tenney, preceding page). She also attended Martha Wright's school in the Manse, and Esther Wright, Daughter of Solathiel, a short school some. Both by no School was a Sunday one. The others were chiefly.

Isaac Luther Clark born Oct. 1767. (now June 6. 1852, in 85th year) went to school to Silas King, & learned his alphabet there. Does not remember much about school books. When he became older, he attended the grammar School - Does not recollect teachers names. Says the studies in this school were chiefly English studies reading, spelling, writing, cyphering, &c. Latin Schools were very few - here & there one fitting for college. Not much English grammar, he thinks. Does not know at what age Scholars went to the Grammar School was not known that the age governed the transfer from lower to upper school entirely. Says the old Brick school house had two large rooms, one for the English school, and one for the Grammar. He went to both schools in the same building.

Mrs Martha Clark, wife of Chauncey Clark, born 1791. says she first went to a town school when 11 years old. Girls not permitted to go before. A Mr Lane was the first teacher. (She agrees precisely with Mrs Damon on preceding page, and makes 1802 the year when girls were first sent to public schools.) Mr Lane went from here to Stafford N.Y. & married some - had something to do with a girl though married, about the time he went from here - [illegible] afterwards in N.Y. Mrs Clark next went school to a Miss Freeman to none of the Lanes. Boys & girls both attended the Schools of Lane & Miss Freeman. Before she went to public school, she attended private schools - Sarah Kingsley, of Enos was one of her teachers.

Her mother Martha Kingsley went to these schools and went to School when young to Electa Clark Daniel Lovell. Private schools were taught in the manse [illegible] a school [illegible] Miss Hall.

Ann L. Clarke born 1788 went to School to Sally
p. 382 Hill & Miss Summer. (See p. 382.
She first went to the town school in 1802. Mr Lane
kept it. He was from Framingham & his wife was
an Easton. They had one child here. He kept what was
called the Grammar School, & some days he had $400
a year & boarded himself. He was gentlemanly in his
manners & a good teacher. He had the whole upper part
of the old School House. Ann thinks he kept some years
but at length he & his wife quarrelled — they were suspicious
of each other; some blamed one, some the other, & some both.
He left her & went to the State of New York & she returned
to her friends in Framingham. He was a teacher & preacher
in New York; his behavior was good; & by a divorce or death,
he got free from his wife, & married another & had a family.
But he became poor, had much sickness in his family.
& kept for a time a light house near Lake Erie. He lost
that place & was very poor & aided by people in Buffalo.
Ann saw him at Buffalo & knows not what became of him.
She knows of nothing against his character, except the affair
with his wife.
Miss Hill kept in Samuel Clark's house.

Mrs Betsey Dickinson (daughter of Quartus Pomroy born 1783)
says she first went to school to Sally Hill; then to Miss Summer.
Says they spent much time in work, but they read & spelt — but
they were poorly well taught in spelling. Had Perry's Spelling Book
Dalton & Bible lessons, & a few reading lessons, mostly Religious.
Did not learn Third Part your Preceptor. Did not write.
Afterwards went to School to Levi Lyman. a very pleasant
teacher all liked him. Both sexes went in the town (new)
School house. He taught writing. They had Dwight's Geography
& a very small grammar, & little use of book, read & spelt.
A Miss Painter from Connecticut kept here after Miss Summer.
a year or two — perhaps a little of Levi Lyman (Perhaps Levi kept earlier than
she has it.) She left off going to school in 1798 or 99.

Mrs. Ursula Barnard (was Wright) Dec 29. 1852 — she born 1783.
Says her brother Joel kept a school & that some of the misses
from first families attended — think it was a private school.
She U.B. did not go to Joel. She first went to school
to Polly Wright at Aaron Wright's. She attended Levi
Lyman's school — both girls & boys attended. She thinks
it was a town school, but knows not how girls were
admitted. — She attended Sally Hill's School — says she
was severe & domineering in school — ferruled her (U.B.)
for not sewing with the top of her thimble. She
ferruled many, & made their hands tingle. Mrs. B's brother
Joel took her from Miss Hill's school, & put her to
Miss Kate Painter's School. Miss P. kept in a green
store beyond or west of (William) Lyman's house.
Miss B. says sewing was the principal branch of Education.
She made a Holland shirt at school when 6 years old.
But they read & spelt, & when older learned to write.
She U.B. learned to write at a school later than those mentioned.
They did not carry sewing when a man taught, of
course.

Widow Elijah Cook born 1774, her account of girls'
+N. 10. 186 schools in great private schools, kept by Dorothy Strong,
Haynes' Kingsley's daughters, Wm Bigg, &c. She read
& spelt, but sewing was the principal business.

Sawmill.

In 1734. Nathaniel Phelps, Ens. Sheldon, Jonathan Strong and Joseph Wright began to build a Sawmill. The place not stated — perhaps in Southampton — seemd to be towards Westfield. Work on it 1735 & 6 The four had paid in labor, materials, &c. March 4. 1736/7 £65.14.4; and in money £43.10.0 — More — 37.8£ (Possibly the money was included in 65.14.4).

Phelps's Work.

Building Chimneys was the kind of work most common.

Building cellar walls & underpinning was next.

Plastering — this was rare, & Lathing. yet some had plastered rooms.

Filling Walls — not common but some.

* White washing, not common but some — was this washing or plastering always?

He had much to do with ovens. They often wanted mending.

Mending. Backs of Chimneys wanted mending.

Topping out chimneys — sometimes.

Building "stoves" & stone chimneys in shops, &c was not uncommon

He often aided in burning a kiln of bricks. When a man wanted many bricks, he made & burnt them, aided by others.

He set coppers.

Laying foundations of chimneys was about as frequent as building chimneys.

Pointing cellars — now & then.

The White washing seems always to follow the plastering or usually. The meaning of this?

Phelps was strong for help — he had Nathaniel son, but more frequently sons Martin & Charles, and apprentices and hirelings.

There is no allusion to anything being brought from Boston or carried there by cart or sled. No such thing as a sleigh mentioned, or a sled with a box.

Nathaniel Phelps's accounts.

His wife must have been a mantua maker or garment-maker. He often charges such things.

Nathaniel & Joseph Alexander, both of age, testified before Mr Hawley in 1700.

Capt. Samuel Marshall of Windsor — being called to go against the Indians under Maj. Treat in 1675, made his will Sept. 4. 1675. He died or was slain, it is believed, soon after — before the next March. His children are named in his will except Lydia Marshall — the other children seem to have had equal portions. He speaks of "brother Benj. Newberry Father Wilton, & friend John Allen. David Wilton & Katherine, his wife, were witness to the will. Some of all his children were unmarried.

The first Joseph Hawley married Lydia Marshall, (not Lydia Marsh as on the N.H. records) daughter of Samuel. It is probable that Samuel Marshall's wife was David Wilton's Daughter, as Mr. Wilton is in several places called his father.

Samuel Marshall who settled in N.H. on the Wilton home-stead was a son of Capt. Saml. of W. He had a brother John (John in a deed calls David Wilton his grandfather — deed of 2 acres in N.H meadow) — also Ebakim, David all of Windsor. John Gaylor of Windsor married a daughter — he is called brother of Joseph Hawley — & sister, Elizabeth Marshall, died in Northampton 1695. — In 1709. Jos. Hawley sold a negro, Patty to his brother Ebakim Marshall for 60 £ the negro run away to N.H. & there was a contention by letter between the 2d Jos Hawley & Ebakiam, about the negro.

Lt. David Wilton. In 1672 Lt Wilton petitioned the Gen. Court to be cleared from Lieutenant of the Hampshire Troops, which was granted. He also requested the G. C. to confirm to him the lands mortgaged to him for debt by the Indians Chickwallopp & Paquahalant — & they granted him 100 acres. After his death, there was a petition on the part of his heirs & children, that the 100 acres might be in some other place than N.H. which was granted, 1685. but no certain place specified.

Phelps were administrators. The meadow had house & homestead, & several lots (Hadden, &c. The house lot was called the Jones lot, & probably was that lot on which Benoni Jones, who was slain by Indians, lived. The barn was on the E. side of the road, & John had that lot in his double portion. John had 72. 10s. & the other 36. 5, including what the married daughters had had. The girls probably lived in Westfield considerably after the marriage of Rachel. What became of John, does not appear. Noah & Lois died & then estate was distributed 1748 to John, Eliz. Samuel, son of Wm. died 1730. & his wife Abigail 1733. She had assistance from the town. He left no children. The estate was appraised at 190£ & the debts were 38£. Except the widow's thirds & allowance, the estate went to the heirs & the brothers & sisters of the deceased, who are called representatives of 5 brothers & sisters & entitled to 1/5th each of the heirs. The following are the only heirs that came forward & received a portion of the estate, Wm. & Eleazar, heirs of John Holton deceased, for one fifth, and Joo. King, heir of David King, Jonathan King & Sarah (Eleazer) Pomeroy, for one fifth. The heirs of the other 3/5 would not appear & give bonds to pay back debts that might be due, & their shares remained unsettled. A partial settlement was attempted in 1732 & another by men appointed in March 33. They called the house & homestead equal to 2/5 of the estate (besides the dower) & they were divided as follows, although it is said not to be divisible. The homestead was "lying a few perch west of the meeting house", & the quantity of land was 54 rods. Wm. Holton was to have 13½ rods of land "on the south by side next to E.G. Pomeroy's land" and 1/4 of the house, the whole valued at 11£ 10; Eleazar Holton 13½ rods next to Wm's & 1/4 of house – 11£ 10 – these two lots for 15 yet to; Joo. King 6¾ perch next to E. Holtons & 1/8 of land – in all 5£ 15; Jonathan K. heirs of David, & Sarah P. each, 6¾ rods of land & 1/8 of house, valued at 5£ 15. Sarah's land to lie next to Edward Baker's northerly. These 6 sums also pay the Widow 12£ annually for her thirds in this property. whole property 46£.

This little homestead was granted to Samuel Holton Aug 28. 1682 – "A small parcel of land on the meeting house hill, bounded N. on land of John Holton, S. on Common land, the sides against the land of Isaac Rust Westerly, and the common land by the meeting house Easterly, being three score rods" 95

William Holton son of Wm. lived on the old place & had a daughter Mary who married Ebenr. Strong Jr.

Error in the Langtons 2 pages back – George Langton had sent one son John, & 4 daughters Pritchet, Corbee, Hanchet & Hannum (sent to keep him in Withersfield) to keep his property 2 shares to John, & one share each to grand son Samuel (son of John) & the 4 daughters. John died in Farmington & left his property in N.H. to his sons John & Samuel
John 3d died children, & Samuel died at N.H. leaving two sons, Samuel & John. In 1693 The Court gave John Jun. property to Samuel & John as next heirs.
Joseph, of Farmington "called uncle" of Sam[l] & John, complained by Thos Sheldon & brought the subject before the court several times, & made application to the Gen. Court. After much contention, in the year 1700 a settlement was made, & it was decided that Joseph should have a piece in the meadow & one third in the homestead. as heir of John 2d & 3d deceased. He had 4 rods wide off the old homestead next to Thos. Sheldon's home lot, the whole length of it, & 1/3 of house – Samuel & John "had" as much – & the other third probably went to widow, who appears to have married Daniel Alexander for her third husband. Alexander occupied the meadow land.

Old Prison — from David Strong. The old prison lot was on Main Street between Ithamar Strong's & the Strongs S.W. of him. It was a triangular piece — one side corresponding with S. Strong's South line, one on the highway, & one connecting these two. The N. angle was near S. Strong's house. It was, perhaps, 5 or 6 rods on the street & as many rods deep, making 14 or 15 square rods. A small part of it was purchased by S. Strong & the rest by Dr. E. Hunt of the town. The old prison stood there about 70 or 75 years ago — it was used for a hog's pen, &c. It was a weak affair & the tradition is that prisoners could & did escape from it without much difficulty. For some years, perhaps 20 or 30, there was no prison here; persons were committed to Springfield, [illegible] July, when it became necessary to confine them.

Ithamar Strong's house stood fronting towards the old m. house N. Easterly, & the end next to the main street was a little S.E. of the elm tree this side of Ebenr. Hunt's house; the tree was nearly against the middle of the end.

Nashawannock. The Webbs & the Danks were the first who settled in this part of the town. Zadoc Danks owned Ebenezer Hammon & the latter took the land of the former, & Joel Hammon settled on it. At a late period James Hulbert who died a few years since purchased them, & some of the Hulberts live there. Twenty or thirty years ago there were 13 graves to be distinguished; the tradition was that those buried there were all Webbs, except one who was a Danks. The ground has since been ploughed and the mounds obliterated.

Benoni Danks was a Col. in the British Service, & died at Nova Scotia. He used to come home full of money, which he distributed very freely. His education was very imperfect, but he had learnt much by intercourse with the world, & was extremely flippant & talkative. His language was rough & profane, but he would occasionally visit the clergymen in this vicinity, & give them a guinea. He had no sons, but two daughters, on whose education he bestowed considerable expense; they went to Nova Scotia. His wife was a Morris, & not being very equable & pleasant in her temper, was called "aunt Cheker." (so called from her maiden name Morris)

Meat-Market. Mr Thayer of Williamsburgh, was the first who brought meat regularly to N.H. He commenced about 35 or 38 years ago — He used for some years to bring his meat in two panniers or baskets, one each side of his horse — two carcases of mutton were as much as he could get rid of at a time when he began.

Punishments. Branding, whipping, standing in the Pillory, & sitting on the gallows were punishments before the State Prison was erected. A temporary post, pillory or gallows was set up when wanted. The gallows was sometimes erected by the two elm trees below Town hall, the pillory in main street — sometimes the whipping was done at Wm Lyman's Tiger post. The boys formerly threw rotten eggs, but this was forbidden by the high sheriff.

Riding on a rail. Some 40 years ago — T.P. who used to get drunk & abuse his wife, was carried through the principal streets on a rail, no one interfered — & all went on peaceably. Samuel Strong & his son Samuel, 5 called in the morning & got a load of grain — had gone through the gate (Kingsley) & in the bottom of the hill, when three guns were fired at them by Indians lying in ambush on the hill — The people in the first heard the guns & came to the spot & found the boy dead & the horses standing. Strong the father was wounded & later he used to say that when they reached a hill where Northampton could be seen, he took, as he supposed, a last look of the beloved home & town, with feelings that cannot be described. He returned one day when there was a lecture, & entered the meeting house to the surprise & joy of the assembly, who received him as one risen from the dead.

Mrs Lane, daughter of John Strong, used to tell this in her childhood, to her

Elisha Beal, lived with the Indians until he was 18 years old; he
[N.H. 1. 53] once went on an excursion to the Mississippi & used to describe them in immense plains, &c. He came home to get his property & return; & did not much entreaty, &c to induce him to remain

The Earthquake of 1755. was sensibly felt in N.H. The tops of several chimneys were thrown down, & things were jarred from the shelves in cupboards, &c. Mrs. K. says knives tumbled from the chimney of her father's house — It was about four o'clock in the morning all were in bed, but her parents & the whole family immediately arose. Some people supposed that the day of Judgment had come, & were in great terror. She repeats a string of verses made on the occasion.

Jonathan Strong & Mary (Sheldon) Clapp, who were married when about 80 years old. They were engaged to each other in their younger
[see N.H. 1. 142, 328] days — she was taken captive by the Indians, & before her return she married. Her first inquiry was about him; & after her return, finding he was married, she mar. Sam. Clapp.
[Oct. 20 1761] When his wife & her husband were dead, they were married together in their old age. The river was very high — there was no boat, & she was conveyed over part of the cold river in an old hopper from the mill, to get to Mr Strongs — (Another story that she held to her feet on the saddle of a horse & they got on a pillion behind him) She has land given to her by Q. Count. See Saml Clapp's will.

J. Strong & Mary Sheldon began to talk of love when she was about 12 or 13 years of age, & agreed to marry each other. She was taken captive at Deerfield ~~from the house of~~ from the house of Mr Sheldon in 1704 & was carried to Canada where she remained 3 or 4 years. When she returned Strong was married & she married Samuel Clapp. Some of the Canada Indians became much attached to her, & for many years they used to come down & visit her. They always came when Clapp's corn was green, & used to devour great quantities of it. They had a fire out under an appletree. Once two squaws with their papooses came all the way from Canada to see her. They left their children in the bushes near Pancake Plain & coming into the street found the house by the stepstones, which had been described to them by the Indians. They asked if she might bring them children, & she naturally sent them to bring them.

My father remembers Jonathan Strong & wife visiting his other friends in S.H. both on a horse,

Gad deserted from the army and joined the British in Canada 1760

Elnathan Cook of Windsor sold land in Newtown, S.H, to his brother John Clerk 1738 – a right coming to him from his father Noah.

Ebenezer Baker was warned out of N.Hampton Sept 17.49. County Rec.

Samuel Baker of N.H. was a son of John Baker of Dedham. This John had of his father Edward 1678 several pieces of land in N.H. including one homelot of 4a. adjoining Edward's land. He exchanged his land in Deerfield with Thos. Pixley of Westfield 1700 & took the land that had been Wm Pixley's in N.H. several parcels. including the homelot S.W. of round hill.

In 1699 he gave his son Saml. power of attorney to take possession of his lands in N.H which had been improved by Roberts brother & others to receive pay in rents, &c. It was with a reference to the land to be set out to him.

In 1707 he gave his son Saml. (35£ consideration) the following parcels of land – 6¼ acres at lower end of Mountain – 8¾ a in Pynchon's meadow 3a on Young's Cow hill & three acres higher up in same Division 2a in Walnut tree & 1a in Venture's field
Also two homelots on the westerly side of Round Hill (probably one which had been Thos. Davey's & then Pixley's, & one the other side of the road.

Samuel Baker, son of the above, married the only daughter of Samuel Langton Langton opposed the match with great earnestness, but did not prevent it. Much ill will was produced & Baker removed out to Pocumtuc plain & lived there many years, & had many trials & troubles on account of Indians

In 1737 he bought of Ebenezer French 2 acres of land (with a house on the top of Clear Hill) on the plain near the plain, which lot had been John Fuller's Scantler's S. Common, E. H. & N. (Found on the S. part of Town guard Chain.

In 1747 he bought of Isaac & James Searl the lot South of the above 2a. S. Baker N. Nath. Searl S. com. or highway W. & E.
The house was afterwards removed to S. Street – Gardner now lives in it.

In 1744 Daniel Baker quit claimed his right to 2¾ acres at lower end of Mountain & 5a in Pynchon's meadow, to his brother Samuel – also 3a in Mountain

1743. Daniel Baker "now of Canaan" deeded to his mother Mrs. Miriam Baker one third of his land & houses in Hadley, (she had right to dower in one thirds in N.H.) His maiden name was Aspinwall

Samuel Langton, grandson of George, married the widow of Praisever Turner, & had part of his property. Increase (or his son) had the rest, & some of Increase's part was purchased by Langton. Langton died 1683 leaving two sons Samuel & John, & the widow married 2d David Alexander (who had on Dewey lot)

In 1753 Sam Fuvell of Shrewsbury petitioned to sell to Josiah Fairbanks 1/2 of David Alexander's Land, Dow. No 44 — 1/2 of Alt. Div. No. 16 — 1/2 of land — Newton & 1/2 of Jn Carr. of Sam & Alexander.

Benjamin James was not killed at Pascommuck in 1704 — he lost four children killed, or wounded so that they died, and his wife was scalped. Benoni Jones' wife was carried to Canada.
Benj. James was not a deacon. There an error in Mr. Williams (Gov Strong's) account of the sufferers at Pascommuck.

Richard Weller (who married widow Curtis 1662) lived some years in Northampton. had lived in Hadley — had grants there. He died about 1690. His estate free was 63£ — had personal estate at Northampton Westfield, & Farmington, but no land except some at Deerfield. His bedding wearing apparel were at Farmington, & it may be inferred that he died there. There is no record of the death of his wife; he probably lived on her place as long as she lived (Henry Curtis's) His sons Nath[l] & Eleazar lived [illegible] in Westfield. John was not living at his father's decease, had left a son John, who was to have Deerfield land. Nath[l] was administrator.
R. W. sold his lot near burying ground to Deac. John Langton of Farmington. and probably his other lands — Sarah Weller (probably his daughter) married John Hannum 1662. John Weller (his son) married Mary Alvord, daughter of Alexander, 1670. John lived in N. H. some years in Alex. Alvord's old house. His wife probably [illegible]
R. W.'s wife probably died 1686.

John Weller, son of Richard died at Deerfield 1686 — Estate prized March 1687 — His father Richard. Admr. 28£ — House but no land — land belonged to his father. Had 7 children born in Northampton. Married Mary Alvord 1670 ch John '70 Mary 72, Elizabeth 75, Hannah 76, Sarah 78, Thomas 80, Experience 82.

Josiah Harman. came from Connecticut — settled first in W. Springfield — then bought & built where Street lives, this side of the lower School house. Elisha was born there 1762 & Clement 1764 — He then removed to the south end of the mountain lived there some time — then went round the mountain & settled near where the Hendricks live — finally removed to Otter Creek, Vermont & died there. He had 14 children — Clement lived at the end of the mountain — the only son that remained in this part of the country. Avery lives near there now.

Thos. Danchet, removed from N. H. to Westfield then to Suffield where he died 1686 [illegible]

Thos. Cooley lived first in N.H. then in Westfield. then in Suffield. He left considerable estate in Suffield. He died in N.H. Nov. 17 1712 (on a visit Nhbt 1. 50. Capt. John Taylor killed by the Indians May 13. 1704. æt. 63. He went out on horseback at the head of the Northampton soldiers, to attack the Indians who had distroyed Pascommuck; the Indians were between the Westfield road & Mt. Tom, not a great distance from Wilton's meadows; they were in ambush, & Capt Taylor being in front of his men was fired upon & killed; he was brought home dead on his horse.

Capt T. testified in Sept 1697. when he was age [illegible] born 1640 or 1641 – N H 1 p. 135. 386.

Inventory of his property Aug. 1705. House & land at home 40£, swamp lot & two other lots mortgaged to S. Porter 46£ 10. Wearing apparel 13£. 4 feather beds & bedding 36£ 10 pr sheets 6£ 2 doz. napkins, brass kettles, 3 iron pots, money scales, bellows. hour glass, table and chairs 40/ 3 wheels 12/ loom & tackling 50/. pr oxen 90£ 10s. cow & 10 wool combs, cards, spoons &c

1716 The estate was much in debt & there was but little left for widow & children. To add to their affliction the house was burnt between 1705 & 1716, and much of the furniture destroyed with it viz. 3 beds, 10 pr sheets, pewter & tin 63/ chairs, earthen ware, &c. The cow & oxen had been sold to pay debts, there was due to Sam. Porter 44£ (on mortgage) Sam. Partridge 17£ 9s Mr. Stoddard 10£ & other debts. The widow took 20£ in personal estate, the sons, their wearing apparel – All these deductions amounted to 162£ The widow Thankful was living in Sept. 1716.

Capt Taylor seems to have sold his old place & to have lived the latter part of his life on a small lot joining Medad Pomroy's (probably near Judge Lyman's corner) This, I suppose was the house above mentioned.

Benjamin Stebbins had a grant of a stream to set a sawmill 1713, over Mumham
river at the brook at the foot of the mountain, laid by the old cartway. In 1714 he sold
half his right to Joseph Parsons & they agreed to build a saw mill "this spring" 1?

Joseph Parsons Esq. had a saw mill at Deerfield.
" " " lived at Springfield several years.

228 Joseph Parsons & children.

In 1679 Nov 26 Joseph Parsons bought of John Pynchon (Nov 26, 1679) land in Springfield (city) Timothy Cooper's, dec'd. 10 acres in homelot & 7 ½ acres meadow, & 10 acres of wood lot. all lying between John Holyoke on the N & Mr. Pelatiah Glover on the S. 20 rods broad; it runs from the Gt river on the west to the east end of the woodlots E. The street lies across it between the homelots & the wet meadow. It all lies together. Buildings, housing, &c on it.

It is probable that Mr. Parsons removed from N.H. & settled on this lot the same year. The consideration was 136£ lawful money.

Benoni Stebbins & Joseph Parsons Agreement 1701. J.P. was to have B. Stebbins same p. 226] land (as preceding page) & B. Stebbins was to have Joseph Parsons corn mill in Deerfield for 31£ in part pay for said land. over the mill & all iron, stone, timber, & privilege of stream &c, that the said J.P. was to have of the town of Deerfield by agreement; the land only excepted.

Joseph Parsons was to have all B. Stebbins common rights, divided & undivided in N.H. The land was called 3£ 17 s 6 pence in "silver money", but the swamps were not to be measured & at the rate in

In 1701 there was another piece of land "at upper end of Manhan": highway N. John Clark S Gt river E. ditch N. (W & N. are frequently exchanged also S & E.)

This piece was probably sold to John Clark.

John Parsons & Jona. Parsons, sons of Joseph, had old homelot on Mankit Bridge street — John west end, Jonathan east end.

John sold his to Daniel Nash between 1706 & 1709 & settled on the plain (where Hubbard now lives). He was one of the first settlers in that end of the street; Wm Holton was beyond him.

227 Capt. John Parsons (same as above) made his will Jan 1, 1734-5; he
229. gave most of his property to his son Wm (last-mentioned
N.H. 1. 137 on his having an heir him be 21 years old.) & took good care of his wife Sarah. His wife died April 15. 1738. He added a codicil to his will after her death April 18, about property given her, and died April 19 — 4 days after her. The will was proved April 30.

Homelot — he mentions his homelot, house & barn, & the homelot adjoining which he had of Thos. Holton (The old lot was 6 acres. Holton's north pit 5 acres nearly 11 a.)

Parsons Pasture. He seems to have owned the whole of this small meadow which had been his father's, and the upland adjoining it extending to John Alexander's. West he mentions "a ditch deep across from the river to the swamp", two or three times. Also a fence across it S. of ditch & by this fence "a boiling spring"; still south of fence & boiling spring was 5 acres to Jona. & Perez Graves extending to a point S. All the rest to Wm.

Lower side road. His father owned 16 ½ acres (3 rod wide) extending from common fence to highway in the meadows. Capt. John probably owned the same (& perhaps some of the others adjoining) Wm had all this lot except 5 rods in width through which Capt. J. gave to Ebenr. Bridgman. This lot was called "meadow lot under the hill".

Wm. had Sen. Field lot called 5 acres, next to Jeriah Strong's, half of boggy meadow up towards broad brook. (Other lands had probably been deeded to Wm before.) All woodlands or commons N. of Manhan.

Webbs.

John Webb was one of the most singular characters among the first settlers. bold, adventurous, roving — he was equally at home with the Indian or white man, & seemed to have preferred to live at a distance from civilized man. His homelot was that on which Lewis Strong's house stands, & here he kept the first inn ever opened in Northampton. He sold this & lived when Ebenr. Hunt does; he went from this to Pascommuck, & afterward purchased land at Nashawannuck, & [illegible] he was a hunter, a trader with the Indians, &c. He came in possession of considerable land on N. H. which had belonged to Wm Branch & afterward to Thomas Barnard & he had his proportion from the town & the other settlers.

He had by a first wife before he came to Northampton — Jo[hn]. Sarah who married Zechariah Field 1668, Mary who married John Earle 1662, & probably others Richard born 1654. His wife Ann died 1666.

He married a young wife when probably more than 50 years old, viz Elizabeth Swift 1667 and had by her Jeremiah 1668. Peter 1670

John Webb died 1670 May 19. and if I am not mistaken his widow married Robert Danks. The Webbs & Danks' lived at Nashawannuck except when driven in by Indian wars. Peter Webb was living 1693 — called "late of Northampton"

Alexander Edwards had sold previous to his death, more than half of his Pynchon's meadow. He retained 7 acres (given to Joseph above) 3 acres by neck & Hos bladder, what was called 4 or 5 acres by the Pond — Nath'l had 2¾ acres by Pond on the upland which came down to Ebenezer. Probably Samuel & Benjamin had originally as much more — The 3 sons had about 13 acres each & Joseph 11 a. besides Pan lots. Perhaps Pond means what was west of Bank's & Edwards's meadow.

High Sheriff – Oliver Partridge 1759 &c

Deputy, Moses Marsh of Hadley 1759

Ebenr Pomeroy was High Sheriff until — ~~1735~~ 1735 (Kelly succ. Luke Hitchcock before 1720.)
Samuel Mansfield of Springfield succeeded, 1733 to 1735, with Pomeroy – 1735 to 1740 alone. "Gent" & "Esq." all sworn and signed "Sheriff."
Oliver Partridge of Hatfield succeeds 1740

Samuel Mansfield's account appears for 1738. 39. 40

He charges for dispersing constables warrants, fast & thanksgiving proclamations concerning land scheme 1740, proclamations concerning Sabbath 1739, precepts to 14 towns for representatives & returning writs & precepts to Boston, &c. he charges for each "dispersing" & the return to Boston 20/ – He had the care of jail & charges 10£ per annum for the charge. He summoned juries to lay roads and charges 20/ per day while on the road; the 12 jurors charged 10/ per day.

Mr. Partridge seems to have taken the office & the care of the jail in August 1740.

Mr. Pomeroy had the care of building the Court house or town house in Northampton. Result in his account Nov. 22. 1739. He says the building cost 203.13.0, & that Northampton by agreement was to pay half; leaving for the upper part of the county 101.16.6. He says the county paid last year 1738, 60£ leaving 41.16.6. now to pay. The Court signed an order for the 41.16.6.

In 1733 there were two Sheriffs of the County appointed, Ebenezer Pomeroy Esq. and Samuel Mansfield of Springfield – one it seems for North. one for South part of County. Their bonds were 500£ each. At same time E.P. Esq. appointed John Pomeroy, under Sheriff, and Josiah Sheldon of Suffield, Ebenezer Pomeroy jr of N.H. and John Pell of Housatonnuck, Deputy Sheriffs. They took oaths.

In Jan. 1735. E. Pomeroy & S. Mansfield were each allowed 10£ for their Sheriffs services.

In March 1735. Samuel Mansfield was appointed Sheriff of the County – apparently no other. bond 500£ In Jan. 1736 Mansfield was allowed 24£ for the last year & Ebenezer Pomeroy was allowed about 30/ for one quarter of last year. It appears that Pomeroy was not sheriff after March 1735. In Jan. 1737 Mansfield alone was allowed for services

From 1717 to 1730, there was but little suing in Northampton, Hadley, Hatfield, Deerfield & Northfield, & I notice the name of no where else in these towns except Northampton. There was more suing & quarrelling in Suffield than any town, considerable in Springfield & some in Enfield & Westfield. Writs & executions were similar to those of this day. Most were printed, but as far back as 1717 to 1720, many were written.

Hawley's Land

By a report to the town 1795 this amount of Hawley land sold was £845.12.7. and Ebenr. Hawley's Middle meadows, young Rainbow, Inner Commons & Little Division lots, & homestead were unsold. Maj. Hawley's land in Belchertown he had in right of his mother, & it was connected with land of Solo. Stoddard. It must have come from the estate of the Rev. Solomon Stoddard though it does not appear in his inventory. The report was as follows:

	£	s	d	
Thos. Hawley's land sold in Belchertown	611.	8.	10	to [illegible]

In 1796. the town sold to Thos. Bridgman 76½ rods of Ebenr. Hawley's homelot next to Bridgmans tanyard lot, for £7.17.6 & took his note. The dwelling house was sold to [illegible] in 1796 for £9.6.0. The two lots were sold to Henshaw in 1794 - 6a £8.13.4. = 52 £. The gillyflower lot was sold to Firmin Woods for Timo. Mather 1793, & Woods' homestead was a mortgage to the town; it included small piece of Hawleys pasture; it was a little short of 3 acres, being sold at £12 an acre, it amounted to 35£ 17s. A small piece of it was cut off by new road, & did not go to Mather. The Belchertown land was sold in 1794 & before & after that year.

Elisha Hawley's widow, wife of Phineas Lyman had 1768,
5¾ acres by Col. Dwights — (33 rods) 1¾ acres in Middle meadows. [illegible]

Thomas Hawley, son of Joseph of Nth. graduated at Hv Col. 1709 was born Sept 29. 1689 and was the first minister of Ridgefield, Conn. Rev. Jas. A. Hawley, the present minister of Ridgefield (Congregational) informs me by letter of June 20. 1846, that the early church records are lost, and the year of Mr Hawleys settlement is not known, but the town records show he was there in 1712. He was town clerk 1714, and died Nov. 8. 1738 aged 49. His wife was Abigail..... His children were Ezekiel, Joseph, Abigail, Elijah, Dorothy, Thomas, Nathan, Lydia, Hannah & Ebenezer. Mr H. (not a descendant) has a list of near 700 of his descendants.

Thomas & Dorothy Hawley of Roxbury sold land 1661 — These seem to be parents of Joseph Hawley

Thomas was slain April 27. 1676. leaving 3 children Joseph of Northampton, Elizabeth, Dorothy. His widow Dorothy had been the wife of a Lamb, before Hawley married her.

Tea. John Stoddards inventory is the earliest notice that I have seen of tea & tea apparatus. He had a teakettle, teapot, cups & saucers &c. In his fathers inventory there is no allusion to any such thing. Tea therefore must have been introduced here between 1729 and 1748 Probably very few persons used it so early as 1748 in this town.

Crockery ware. Some china ware was sold here long before this, but here is the first notice that I recollect of earthen plates, mugs, bowls, sugar dish, &c. Very little in the town at this time 1748 except the brown earthen or potters ware. Crockery was introduced between 1729 & 1748, & was not much used until long after 1748.

Gold Watch. Col. Stoddards was the first ever owned by a Northampton man; the same may probably be said of many articles of furniture. From his connexion with the rich & great in Boston &c he would be more likely than any other person to bring in some new things.

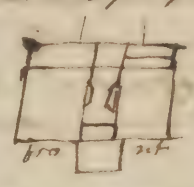
From Solomon Stoddard, June 14, 1833.

Israel Stoddard, son of Col. John, married a daughter of Israel Williams of Hatfield (cousin). He lived & died at Pittsfield. He was a tory in the revolution & suffered some from the whigs, though he was generally quiet, & did not intend to offend. He had 11 children, but all died young but three — one of the three (died unmarried aged 35 — one daughter) married Ashbel Strong of Pittsfield, a lawyer & son of Rev. Thomas Strong of New Marlboro'; she had no children. — one Williams. He is now living — works at farming &c with Charles Billings of Conway. He is an odd stick — was sent to college but did not stay — studied medicine, but did not practice — was fearful, jealous, suspicious. His sister Strong left some property for him. This branch of the family will escape with this. Israel Stoddard was called Major. — he died 1783. 4. or 5. of his widow some years after.

Col. John Stoddard's daughters were educated in Boston — their teacher was master Turner. They learned reading, spelling, writing & some arithmetic — also embroidery &c. The solid branches were not much attended to. They used to ride to Boston on a pillion behind their father or some other person; sometimes on a side saddle.

The roof Rev. Col. Stoddard's house in front presented three peaks or pediments — ^ ^ ^. The middle one belonged to the porch, which was about 10 or 12 feet square. Windows in two outside peaks & perhaps in porch peak. All windows diamond glass. Front-windows, one above & one below, each side of porch. Chimney in the middle — front entry. Back of the main building was a building say 10 feet wide with roof the other way extending across whole length of building — only 1 story high. Back of this was kitchen &c. This middle building had room back of south room for ~~potatoes, kettles~~ various purposes; back of north room was a soap room & a pantry.



The Ground plot resembled the following figure not including kitchen.

10 or 12 feet building may have been all or nearly built — kitchen afterwards. Was not a lean-to roof sloped N. & S.

Mrs. S. thinks windows were in one piece and turned inward — not sure. &c

Mrs Stoddard 1848, says the porch & main building had upper story projecting over lower, and turned pendants were at each corner &c. 2 dormer windows came out even with the eaves, & the two peaks over windows. Porch roof probably not so, for the roofs of dormer windows. Does not recollect what cupboards &c were about windows.

land at Pontoosuck (Pittsfield). In Nov 1734 the Gen'l Court granted to Col. John Stoddard, 1000 acres of land, & he had it laid out on the Housatonnick river. It was given for his public services & sufferings. In 1736 he petitioned the county court for liberty to take a lease of the Housatonnick Indians of a tract 6 miles square for 999 years & proposed to pay them £6 annually. He says his 1000 acres are not enough to induce people to settle there & make a township. He says his land lies on the main branch of Housatonnick river, about 16 miles north of where the Indians are now settling (Stockbridge). The court gave liberty to the Indians to lease the land 999 years & him liberty to take the lease — 4 miles west of river & 2 miles east of it. At his decease in 1748 he owned ~~[illegible]~~ land at Pontoosuck estimated at 6000 £ — how many acres does not appear. Judge Wendell, it is said, owned the rest of the township. In 1736, a road to Albany went through this land, probably the road from Westfield to Albany.

Letter from Mrs. Stoddard to her daughter Edwards at E. Windsor after the birth of Jonathan, is said to be extant. 1704. She relates the destruction of Deerfield & captivity of Mrs Williams &c & tells of the death of her son in prison, "at a place called Brest in France". He had been captured by a French vessel from an English one. She sent a silver porringer to the babe & an ounce of snuff to the mother. Mrs Edwards is said to have been educated in Boston, in the manners of the colony aristocracy.

Harvard College built 1675 was gambrel roof — and 5 or 6 windows in each side of the lower roof, making as many high, prominent peaks. These 5 peaked roofs came out a little farther than the body of the house — they came out square as the eaves, like the old building near Boylston Market. The next college built had gambrel roof but windows not into the attics, but like those in such roofs in N. H.

This land was doubtless owned by Kings sons, Eliazer & Daniel; & by his grandson Levi Shepherd purchased ten 12 acres — for both shall in King Lot, but some in adjoining lots.

Old Rambow

S. Stoddard mortgaged to E. Lane 1790 (mortgage paid)
1½ acre bought of Epth. Wright Esq. Jos. Allen Dec'd S. Ebenr Wright & brothers N. Hill W. River E.
Nehemiah Allen had 2½ a N. side Samuel Woodford Lot. Samuel Marshall owned it & the above Samuel & Phesend. Phesend sold his 1¼ a S. side next to Thos. Allen to Epthraim Wright & Wright sold it to S. Stod. Samuel sold his 1¼ acre to Ebenr Wright (of Judah) N. side next to a lot of 3 acres, which he & his bro. Thos. owned —
Wrights sons owned this 3a & 1¼a = 4¼ as originally called — in fact 5 acres or more. This piece came down to Enos Wright. In 1810 he sold 3¾ acres on S. side to T. & J. Shepherd — see back.

S. S. mortgaged as above Lot at lower end of Old Rambow bought of Benj & son of Thomas. Wait Still Strong's heirs S. Wido. Elizabeth Wright N.
This was originally only half the Butt Lot. Ebenezer & Thomas had it of Ebenezer's daughter Elizabeth wife of Timo. Wright who had his half.

Webbs Lot

S. S. mortgaged as above 8½ acres on O.R. Hill W. Benj. Sheldon E. Caleb Strong Ebenezer Phelps of David Burt S. Joel Wright N.
This was part of John Webb's Lot — town gave him 5½ acres and then sold him adjoining to it (first given to Joseph Phelps) 2½ acres. There was evidently meant more than 5½ + 2½ = 8 — probably 12 or more.
In 1658 Webb sold the eastern part to Thomas Mason "from the end of the ploughed ground through the swamp to the great river." Mason called it 4 acres — gave it to S. Judd. Webb sold the Western part to Zechariah Field and after passing through several hands, the town gave it to Mr. Stoddard when he was settled here. It was called 1664 6¾ acres, but contained 8 acres — was purchased by him. In 1796 Mr Stoddard calls it 8½ acres — perhaps he had purchased Selah Wright's Lot adjoining.
In 180— The sheriff sold the equity of redemption (it was then mortgaged to Caleb Strong) on an execution in favor of the executors of John Worthington Esq. Pres. Jr. bid off the equity for 500 dollars. The land was 8 acres 84 rods Elijah Hunt Dec'd N. now his heirs Hunt — Elisha Graves, Ebenr Phelps and Caleb Strong E. Ebenr Phelps & Wm Sheldon S.

Young Rainbow

S. Stoddard mortgaged to E Lane 1790

7 acres & 1/2 acres in Young R. Josiah Torrey's heirs N. Caleb Jos. Root S. Lyman Clark and Little Rainbow Hill W.

1 1/2 acres in Do. Lyman Clark N. Supply Clapp S. Supply Clapp & Jos Root E. Perhaps 1 1/2 acres is included in 8 1/2.

In 1804. S.S. gave his son Solomon a deed of this.

In 1807 S Stoddard sold to Th. J. Shepherd 9 acres 3/4 8 rods — Elen's Lane N.W. Gt Rainbow Hill N.E. Joseph Root & late Supply Clapp S.E. Little Rainbow Hill S.W. — excepting from this conveyance 2 acres which S.S. senior purchased of Lyman Clark (included in the bounds). 9 acres conveyed.

This includes the old Stoddard lot given Rev. S.S. by the town &c — and probably the Root Lot South of it. Lymans Clarks 2 acres is probably 2 acres which Jonathan Root had in Root lot of James Lyman after him. [illegible] another Root lot South of this.

Naomi shut herself up in a chamber & refused to eat or drink for about a week. The old people became alarmed, & sent to Jones, but he was highly offended & would not go near. This gave life to Naomi, & she became steady, but lived to be an old maid, and then married Elijah Arms 2nd (Deerfield Hill River). She was a smart sensible woman, used to tell the story about Jones with great glee in her old age. Said it was more will than love that led her to the starving plan. She had no children.

Phelps Meadow.

North side of River

First grant – about 1661, 8 acres more less, in lieu of 4 acres in the meadow. Lying against Mill river W. against the river running about with a compass S. common at top of hill E. & common N. – lies "up Mill river".

(Description on copied book. Against the river W & S. the river coming round with a crook, commons on top of hill, E & W. (N.?)

Addition Feb 1662–3. 5 acres more less in lieu of swamp in his Meadow lot Mill river W. his own land & some part of Wm Hulbert's land S. against the commons E. "lying against the river running about with a compass unto a point N. (This was chiefly upland, on the top of the hill.

This meadow came to a point East, by Bridgman's dam; and a point extended west into Hosts meadow, the river bowing round it.

South of River

First granted to George Filer. 1664-5 – A parcel on the N. W. [should be S.W.] side of the mill river, against the meadow called (Phelps' meadow – white oak tree & stump N.W. Mill river N.E. "from Mill river, South East, with a swamp side, under the brow of the hill." "on the south east extending 80 rods by a forked white oak by the side of the hill." 16 acres more or less.

Nathaniel Phelps I bought this of Samuel Filer June 20, 1688. (Jan acknowledged before John Pynchon) same bounds & quantity, "opposite his gates."

The town granted to the same N. Phelps a piece of land 2½ acres South of Mill river, bounded by land formerly Filers E. Commons S. & W. Mill river N. 90 rods long 4½ rods wide at N. end & 5 rods and a ½ at S. end. This joined the 16 acres on the East – was probably same length.

The lowland meadow was in Filers grant on West side; the 4 or 5 rods strip was a little higher. On the east side or S.E. there is a swamp, apparently the bed of the old river, running along under a bank or hill. This is the S. E bound of the lowland, which runs at above Bridgman's dam. What this was original bound, I am not certain. The lowland does not seem to be more than 40 rods wide towards the South or south west end in a straight line, but would be more by following the irregular bank or hills. On this river the lowland may be 80 rods or more. The S. bank for some distance from the river is not high – there is a much higher one running along from the east, perhaps 60 or 40 rods from the river, & striking the lowland meadow about half way on the S. E side, & continuing round S. much broken, this meadow, some land west of it, and Hosts Meadow. The strip of low upland between the high bank & mill river extends down the river some distance, & at length falls down to about the level of Phelps' meadow, perhaps lower. The high hill sweeps round this piece of lowland & cuts it off on the east, a little above the Tannery.

In 1697. John Clark had a grant of the strip above, or the eastern part of it. bounded by Mill river N. Great hill S, brow of Great hill E Nathaniel Clark's W. [does not this mean N. Phelps?] called 4a

In .... Samuel Clark and Wm had a grant for highway to mill; on west side of mill river, Mill river & John Clark N. Commons W. Joseph Parsons S. his own land E. [this was west of his 11 & 12 acres. & went as far west as Jos Parsons S. on the north. John Clark's lowland above came down against part of it.]

In 1703. Samuel Phelps had a grant south side of Mill river, on west side of Nath[l] (Phelps meadow; Nath[l] Phelps land E. Commons W. brow of Great hill N. Commons S. 50 rods long. 16 rods wide north end, 17 rods wide south end. 4 acres

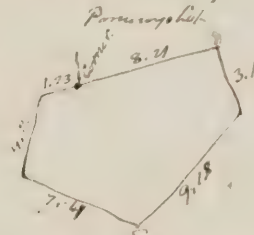
Land above South Street bridge. see in homestead Dec. 1. 1675.
or common lot.

Culbert Maclane lived in a house above the bridge, on the rear of Jeriah Strong's homelot. His son John Mclane sold the house & lot to Bathsheba Hull, widow of Amos Hull, negro. (Where first lived near Weber end bridge) The town claimed this property & in 1765 brought an action to evict, dispossess. widow Hull. They say they were in possession of the land within 30 years, & were disseized by John Maclane now of Sheffield. They describe the land as follows — Beginning at the south west corner of the late Elisha Pomeroy's lot which he bought of Bela Strong was in possession of Wid. Elisha Pomeroy, thence W. 12¾ S 1 rod 23 links; S 6 W. 4 rods & 6 & 4 rods & 4 links N 37 E. 9 rods 18 l, N 5 W 3 rods 14 l, W 12¾ S 8 rods 21 l to 1st mentioned corner, containing 70 rods. Plan.

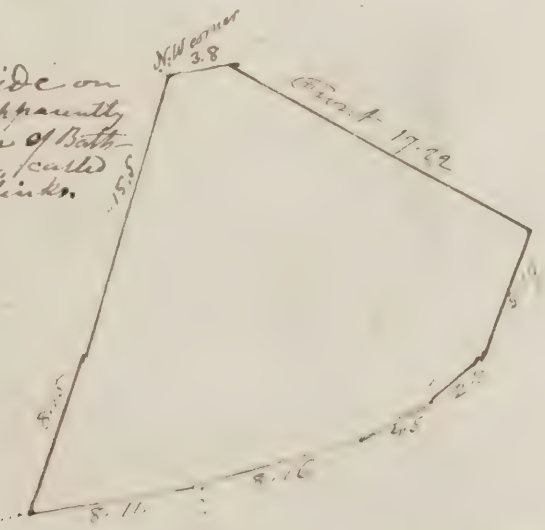


The bridges formerly were here some rods further up the river than it now is.

The 7 rods 4 links was probably on Mill River.
and 9 " 18 " was on road to bridge & above.
She did not appear & town got the land.
Execution issued June 2. 1766.
Town demolished the house, and leased the land & some above it

John Hodge remembers when Bathsheba Hull lived in this house. She was a stout wench. The boys sometimes threw snow balls at her house, & she would sally out after them. She once caught Hodge & gave him a good licking.

There was a contest. Elisha Alvord encroached on this land (or some near it. In 1771 Seven Pursuers measured out Elisha Alvord's homelot as follows — beginning at N.W corner thence S. 16 W 15 rods 5 links, then S 17 W. 8 rods 15 links, then E 12 N 8 rods 11 links, then E 16¼ N 8 rods 16 l, then E 32 N. 4 rods 5 links, then N 52½ E 2 rods 15 links, then N 11 E 5 rods 19 links, then W 23 N 17 rods 22 links, W 11 S. 3 rods 8 links to first bounds — So much confirmed to said Alvord



The 8.11 on South side on course 6 N. is apparently same as North line of Bathsheba Hull's above, called W. 12¾ S. 8 rods 21 links.

the Mill River & Mill French separated against the old Mill lot so called — the French was North of the river & near the bottom of the hill. John Webb had above homelot, including also Bathsheba Hull's. Her lot was between Old French & river (called Island 1770). John Webb had given up to the town what was between the River & French on his homelot, to accommodate the Mill &c. Thus the town became owners of this spot, & dispossessed Bathsheba on the ground. Elisha Alvord had claim to it — a part of it, but did not get it.

Examination, Feb. 16. 1837. The old Mill French is now there — not entirely filled up, at bottom of hill in rear of old Elder Strong's lot. (now Unitarian Meeting House, late Ebenezer Hunt's w. house &c.) & between that and Mill river is still (the "Island" where Bathsheba Hull lived and there are on it 3 little houses, belonging to late Ebenezer Hunt. It was sold by town to ...

√ Charles Starkweathers homelot &c

This homelot originally granted to Enos Kingsley, retains the same width it first had—16 rods. The north or northeast line from the highway or street to Mill river is 146 rods, the southwest is shorter by 8 or 10 rods. From the S. E. corner or end of 146 rods, it is 7 or 8 rods on the old river place, westerly, to the middle of Elder Strongs great Marshan lot. The half of this lot south of this middle line is owned by Starkweather. It is 16 rods wide & from 140 to 156 long, according to the bends of old mill river. The north line is about 150 long, down to the gutter where the division line was across the lot. This half of the north part of lot was given by Elder John to Ebenezer, & Ebenezer gave it to his two sons Ebenezer & Nathaniel, 14½ acres. More or less of it fell to Noah Strong & his son Daniel. Haines Kingsley purchased 12 rods in width on the south side, & Parsons Bartlett had 4 rods on north side. Last year Mr Starkweather purchased these 4 rods of Bartlett; and about an acre of land from the Marshall lot, included between this lot, the great gutter & highway. The lines of the homelot are S 50 E: the lines of the Strong lot are S 10 E. Between Mill river & the top of the bank, & west of Starkweathers lot, are 14 acres, lying in the rear of the next lot (old Nathl. Clarks.) It is on the line of next lot at top of hill about 12 rods, but on Mill river would more than cover the rear of that lot. This was purchased by Lewis Shepherd of ... & Sold to Ebenezer Hunt 1st 1779. Hunt sold it to Ch. Starkweather 1788 for 21 £. Haines K. N. old river place E. old river place Heirs lately Charles Clapp's Dec'd. S. brow of Fort Hill W. The width on south line from foot of hill to river is 8 or 10 rods, but farther north, owing to crooks in old river is 20 rods as far. Charles Clapp's is now owned by Nathl. Parsons.

Settlement near Bartlett Mill.

Joseph Bartlett was the first permanent settler here — & seems to have lived alone for many years, excepting his nephew Jona. Clapp who lived with him but was not married until 1735. Joseph Wait & David Bartlett were two first settlers after Joseph Bartlett.

D.185 Joseph Wait, son of the first William, born probably about 1693, bought
NH 1: 1 100 acres & owned from the east end of Jonathan Hunt's Long
p. 38.3 (Division Lot — the last but one & Lyman's lot South, ~~Bartlett's north~~)
Clapp's lot north, & Bartlett's lot next north) and built a house
barn, shop &c. here. He probably settled here as early as
1726 or 28 — perhaps before. He died March 6, 1732, leaving considerable
estate. It appears from the town books & papers, that the expenses
of his last sickness were paid by the town, but why it was so
I know not.

His will is dated March 6, 1732 (Hamp. 1732-3:) He gave all his property to his three younger brothers, Jonathan, Samuel & Noah (brothers by his father's 2d wife) and they were to maintain his mother Anna Wait, & pay his sister Experience 10£ & Deborah Sackett of Westfield 5£. He owned part of a sawmill "under the mountains," whether east or west side does not appear.

His inventory, March 19, 1732 was — ⅛ of Mountain Sawmill -8-
Lot he lived on bought of Jona. Hunt. 100 acres, £180

Land south of Manhan river, granted by the town, 20

Town brick (probably for his house) 5. 10. 0

His brothers & mother seem to have lived on the same place (& probably sister Experience) Samuel died in 1745, and gave his property to his brothers Jonathan & Noah & sister Experience &c. Samuel & Jonathan kept their grandmother Webb until her death, & the town paid them. They lived on same place probably as long as they remained in Northampton. — 100 acres of Jonathan Hunt's lot would be in length about 380 rods. Hunt's had Joseph Wait's Long Division lot (owned by Wm. Wait No. 59, E. side)

After Pasconnuck was destroyed 1704 — Samuel James who was married 1717 was probably the first that settled there & occupied the old homestead. Elisha Scard was married 1728 & took possession of the old place — his mother then husband Nathaniel Alexander (of Providence, Benj. James of Coventry) may have lived on it before. Benoni Jones left no posterity, and there is no evidence that any person lived on the place until it was purchased by John Langton. Benj. James sold his homestead to Jona. Hunt 1769 & went to Coventry; it is not certain that any person lived on it until Phelps Clark purchased it. Moses Hutchins one left no children. Ebenr. Ferry settled opposite Hutchinsons lot — was married 1739.

In 1741 — the following persons were at Pasconnuck, beginning at west end.
1 Ebenezer Ferry, 2 Elisha Scard, 3 Samuel James, 4 Widow Abigail Wharton or widow of John Langton, 5 Daniel Alexander, 6 Moses Parsons,

In 1741 — there were none on the Mt. Division — Abraham Miller, William Wait & ors Elias Lyman, Thomas Judd. Nath'l Kentfield was among them. There were none on the west side of Mt. Tom. Samuel King, single man lived among them, probably at Elias Lymans

In 1741. There were at Nashawannuck, Robert Danks sons, & Moses Webb, & Jona. Phelps was near them.*

In 1741. There were near Bartletts Mill, Joseph Bartlett, Jona. Clap & Samuel Wait & brothers, Widow of David Bartlett. Thos. Stebbins among them.

In 1742 same as above — except Joseph Wright Jr & Reuben Wright near Rocky hill. & Ebenr. Corse was on S. H. Pomeroys were at the Meadow, viz Eldad, Samuel and sons, in N.H.

Daniel Webb lived near Nat Plain in 1731 &c. but was gone in 1741 [L. see N.H. 1. 440] Perhaps he lived where Ferry was afterwards. No. Was on his father Webbs 50 acres Nat Plain

Bones of persons long ago on Nat Plain, on old Pierce Clark place — now Pendleton's; perhaps of Indians or perhaps of Whites. PS. Indians undoubtedly.

Nashawannuck.

m. 1. 440 456. * John Brown from Coventry who married Jonathan Phelps's daughter, lived in a house near the Marshall house at Nashawannuck — perhaps the same that Phelps lived in. Marshall House was Seth Hubbards, who owned much of the land there, down to Main road

Dec. 16. 1853 Capt. Buddington (person born 1775, says that when he was young there were 3 houses & families at Nashawannuck Seth Hubbards, Joel Fennum, (the last now is) and John Lawrence a few rods S.W. of Fennum, on E.H. road. Irene Fallon Sodt is taken — built by or for Julius Hannum. There was an old small house on top of the Sandhill N.W. of Hubbards where John Brown had lived.

Dec 8. 1853.

Asahel Lyman informed me that his father Silas Lyman, purchased the homestead where he Asahel now lives about 1763, & built the house in 1763. He left his father who lived about a mile below. It was an old hilly place & then was there, or had been, an old house on it. He did not keep a public house for many years before he began when his father ceased.

He showed me the old Northline of the Mountain Division. I came down to the road about the north end of big barn perhaps struck on the barn. Was a little north of the barn before an addition was made to E. end. he thinks.

The 80 rod lots that butted on the mountain Division S. came over to the meadows (or to top of hill west of meadows. The last lot or lots if continued would have run into the meadow, north of a projecting point of the hill, and this lot one man claimed the meadows against the end of this lot to make 80 rods long, but was obliged to give it up, the meadow being a much older grant.

Northampton & East Hampton line N. 11 S. E. N. Rail strike the road just north of the house where he & Parsons lived leaving that in Northampton.

Dec 15. 1853. Chauncey Clark took course of North line of Mountain Division and it ran West 1° S or E. 1° 4'. & came down South of Lyman's barn a rod or so.

We found the 80 rod lots butting on the N. mountain line were only 74 rods long to the land sold by the town some 25 years ago. There is one lot west of the meadows before we came to land sold by town.

Rock mentioned in lower entry Pascommuck in Wabbs land & Parsons 1665 N. H. 1. 427. is on the line rock or ledge, perhaps 20 rods below Asahel Lyman, house. In rail road excavation cut of the west end.

Rock mentioned in J. Langton's B. 315 same as above, or 80 rods above Asahel Lymans or

Utley land began on N. end. ran near the upper rock for it began 85 rods 7 feet 6 inches about the N. line of mountain division. Upper Rock is a little more than 80 rods above S. end of Int Division. 80 rods is between the rock & the house just below it.

Rel Bull land of mowing west of the road extended down to mountain Division or thereabouts. Lyman or his father bought the lower part of the Janeses. up to corn fence with trees.

p. 394 Silas S. Brown senior lived on Easthampton road west of N. Town, Jeremiah Webb's grant of 50 acres, where had 20 or 30 acres. running back to the Mountain. His house was some 60 rods S. of Asahel Lyman, Phineas Clark's house & only one between Clark's & John Elwood's. 1776, 1780 & about 1782 or 3. Brown bought of Elisha Pearl's homestead and kept tavern in it. There was an addition to the old house but upon hand some say. the old part of house was first built & supported the hall when Mr Pearl built. and leaves to be cut out of one apartment. Brown tore down the old house & built a new one which is now there. he built house for Silas Jr. or he Silas built it on corner, before the other house was built. S. Jr. kept tavern after his father gave it up. He so to did badly & involved the father, & himself almost ruined him. Sons Silas & Rufus went to Canton on the river. His son Joe E. Brown, son of Silas Jr. was born

North lot Gains Burt to Nat. Edwards – to R. Hubbard 1834.
25 or 6 acres in all – but only 15 or 16 on flat or meadow.

2d Owner Wm. Clark. 80 acres call — or 80 rods wide & averaging 160 in length from Mill River to road. North part not so long, but some of it — yet. The upland between the meadow & road is 8 or 10 acres — say 70 acres of the old meadow.

1st lot North, next to Hubbards was owned by Ebenezer Edwards & after — by his son Solomon, &c. of whom Wm Clark bought it.

2d lot — next to above, bought by Wm Clark of — Clark's probably the 10 acres appraised in Clarke's estate 1777.

3d lot — Wm Clark had of . . . . .

These three lots — 40 acres or 40 rods 160 long. The middle lot in 1790 — Elihu Clark owned it — had Wmb. & S.

4th lot bought by Wm Clark of Wm. Sheldon about 1819 — the last of the whole — 40 by 160. Benj. Sheldon owned it 50 years ago — &

3d owner Gains Burt, 30 acres or more with this — say 40 rods wide.
North of — Abner Hunt says this was owned by Increase Clark & mortgaged to Elijah Dwight, &c
road.
South road — Gains Burt, about 20 acres, triangular, but cut off at south end by a lot of David Hunt 9 or 10 rods wide, and a little piece still south of that. Hunt claims this as the end of his long division lot, & says it was not a part of Broughton's meadow. about 7 or 8 acres.
Deac. Jona. Hunt, it is said, owned the twenty acres. No. John Hunt.
Abner Hunt says this belonged to John Hunt, & next to Henshaw, & he bought it. Road, 80 years ago, from Gains Burt's to Julius Phelps, where it now is. On this side the river the road some 40 rods west of where it now does, & the fording place was perhaps 10 rods below the present bridge. Having crossed to west side, the road turned to the north & came up, not far from river, to about where Burt's house is. A few rods of beach next to river, west side, was claimed by Samuel Clark as being part of his long division, which jumped over the meadow & ended here. Hunt bought it & called it an acre.

East side of Mill River — none below the bridge road — river runs close to east bank below bridge to end of the meadow.

Gains Burt owns the whole up to where the highland comes to river & the fields connected with it. Bought the N. end part of Benj. Clark & the south part of Abner Hunt. In all 30 or 40 acres.

In 1764, in laying out Inner Commons, the line between Deac Jona Hunt & Samuel Clark in the meadow was carried from the top of the bank (E. of Broughtons meadow hill) due East, 18 rods to the road — then S. Jona Hunt has all the upland south of this line to road east, road south, bank of meadow as it runs — his meadow probably perhaps included not the — all the meadow, though the bars at entrance of meadow (near where bridge now is) are S. Jona Hunt's bars.

Abner Hunt says his father's meadow was about 20 acres; but some acres towards upper end have gone the other side of river by its changing its course including an orchard. Upland all out to roads, as stated above. Benj. Clark's meadow, he thinks, was about 10 acres or less — not to two.
Stoddard 50 acres upland this side of river, between the two roads west east to opposite Hewett's house, or thereabouts. Deac Jona. Hunt bought it of Solo. Stoddard, senior. & sold to — & he sold these 50 acres & more when Abner was a boy. Owned a little lot of 4 acres, north side road, & Abner bought the Baker lot (Ensign King's) west of it. The Baker lot runs up the Manner road to Benj. Clark's land. Bought it for 95 or 100 acres Abner Hunt says

Wood's road was the old county road, Abner Hunt says — thinks no county road has been laid by when Gains Bunts house is. The bridge over Mill river on Braddards road was where it now is (near old Mill) when Hunt was a boy — but was told it was farther down previously. The county road then went from bridge to Julius Phelps's under where it now is — had always been there so far as he knows — east of road was Broughton's meadow, & North of it Long division — except at south end of meadow where Long division then crosses.

South East corner of Wm Clark's (Elisha Cook's) is a large pine tree near the highway, at N. E. corner of George Cook's.

Julius Phelps House — stands part on old Broughton's meadow and part on Long division. Abner Cook's, then Enos Cook's 26 rod wide lot. Julius Phelps bought 1½ acres lotting against Enos Cook's 26 rds, & the corner of the other side of road — it was called a part of Broughtons meadow — of course Enos Cook's lot did not come east to road — line run through about the middle of Phelps's house.

Next lot south, called Southwell's, came down to road & Southwell's heirs claimed the same width through the meadow, but did not enforce their claim. The Dunks had long fenced the meadow against Southwell's 30 rods wide & held it. Some thought they held it on a by possession, & that S. was not originally included in their grant.

Front of Long Division South of Mill River near Oil Mill was the fence near the barn, extending south.

The line between Northampton & Easthampton, west road has John Phelps south & Medad Strong's north or the Long Division lot laid out to Thomas Strong is north & the lot laid out to Nathaniel Phelps is south. [illegible] end are occupied by descendants of first proprietors.

Medad & Hunt Strong lived east of road, in one house till about 15 years since when a house was built on Hunt's west of road — now all owned by 3 sons of Medad. The old Strong lot was laid out for 41 rods wide now called 42 — to run a mile west — to within 30 rods of Hatfield. They own a lot next north laid out to Thomas Shelden 12 rods 8 feet wide (now 13 rods) enough to make 10 acres.

1830 Pomeroy's Meadow — observed May 19. 1830.

Eldad, s.n. of Caleb Pomeroy, had "the sandy plains," which had been granted to his father in part, & gave it to his two sons by will 1754. son Eldad his old house, and s.n. Joseph house where he lives & each his barn, & half of the ds. Eldad, s.n. Eldad lives where late Solomon Pomeroy (John Clapp bo.) put the lot & built a house. Joseph Pomeroy's house was nearly opposite Eleazar Hammun's & the cellar is now in the highway. Joseph lot & Eldad's lot were each from 7 to 8 acres, & extended east to land now owned by Lieut. Arthur Lyman. So Sandy plain was 14 or 16 acres. The road formerly came up hill west & north of where it now does, & near Hammun's barn went north across long division lots to Pudding Hill.

Samuel s.n. of Caleb Pomeroy — owned 10 acres of plain between the brook & upper meadow — the land on which Wareham Pomeroy, late Enos Pomeroy now E. Blood and John Hannum live. Samuel in 1746 gave to this & house to son Caleb, (house when Wareham lives) and the other half to Noah. — Noah seems to have sold his to John Hannum, & Caleb's half came down to son Enos, & to grandson Enos Wareham. Enos sold to Eldad.

Samuel's residence, I believe, was where the cellar is on Eleazar Hammun's lot. S.W. of his house was his barn. This plain, I believe, was Samuel Pomeroy's 8 acres E. of this east of Pomeroy's brook, on which his house & barn stood. He gave the lot & buildings to son Simeon. I believe (know not certain) that when Simeon went to Lenox he sold this homestead to Eleazar Hammun, & also his meadow & Rocky meadow — the same now owned by E. Hammun having old road thro, bounded N. by Wareham Pomeroy W. by the family burying place, meadow E. & highland S.

Eleazar Hammun lived in the old house (the cellar is) till about 1777 — he built the house where now is the present, & grandson the chimney which is the east side of long division. Andrew Hammun lived to be very old — was a deac. Elect. Hunt.

Eleazar Hammun — was born [illegible] April 1730, and died [illegible] 1818 — would have been 89 the next April. built house when son Eleazar was 7 years old. Son E. born 1764.

Joseph Pomeroy's estate settled 1770. There had been no division between him & Eldad. The homestead 160 & called 160 acres meadow of both 20 acres. — Division after this. Hammun bought of J.P.'s part of homestead 1788.

Inner Commons, near Eastman to Meeting house.

There was a strip of Inner Commons running from the Mountain Division to Merrimack river — varying in width according to course of the river.

1st Lot at West end of this strip, near Bartlett's Sawmill — was laid out to Joseph Bartlett 1754 — bounded N. by Westfield Road S. by Mountain Division, N by Merrimack river. It was 25 rods on Mountain Division, South & contained 3a 3qr. 8½ rods or 688½ rds. To make this quantity the width or average distance North & south was about 25 rods, or 24⅓.

3 Lot next east laid out to Ebenr. Bartlett called 0a. 3qr. 11 rds — 3 rods Seems to have been 8 rods on Mt. Division line — so averaged 15 or 16 rods north & south.

Mill River, & Lands on it: Examined July 6. 1837

From old oil mill, now Silk Factory, follow down the stream about 100 rods, and you come to a high bank around a meadow, on north side of River; & to the place for the new Silk Factory. This meadow is Baker's meadow, or was originally was granted to Edward Baker. It is from 100 to 120 rods long in a crescent form. on the N.E. side is a bank varying from 10 to 20 feet high enclosing the meadow on two sides or more. The meadow is from 10 to 25 rods wide & probably contains 10 or 12 acres On the top of the bank is the old ditch for the ancient fence the bank becomes low towards east end, & is cut off by a brook – east of the brook is the commencement of a hill say 150 feet high to 150 – I suppose Baker's hill

The high hill approaches near the river & continues down more than half a mile. In the vicinity of the bend & island it is not half as high as further west & north. Indeed there is a flat but a few feet above the river opposite the Island, but it not large. Opposite the lower point of the Island is the cellar & wall, where Hezekiah Reed formerly lived: and the land in the bend is cut off by a ditch.

The opposite or South western bank is high & steep much of the way from the lower end of the meadow to below the island, & down towards the paper Mill.

The Island may be 80 or 40 rods long & from 3 to 6 rods wide – probably 15 acres or more.

Original Grant to E. Baker in these words – "a parcel of meadow on Mill River, compassed about with a steep bank somewhat as a half moon Northerly, the hill & the brook lieth at the east end, the Mill River Southerly, at the other end the hilly bank comes to the river westly, containing" A pretty good description.

Hezekiah Reeds house was built in revolution for a pest house and many had small pox there. After this town let Hez Reed live there was three years. some acres cleared round it. Abner Hunt thinks the town owned the land in the bend S.E. of ditch. Says Jerijah Strong's heirs owned a lot that butted on the ditch, & Jos Hawley's heirs (Jos. Clark mother, his father another. Jas. & Hunts owned a west track there. He thinks the Island belonged to the Strongs (Bela.)

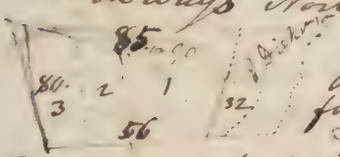
King Street — West side — beginning at North end.

Josiah Parsons lot, he bought it 1794 — extended just over the swamp — did not go north to Slough hill road. He sold the north end to Josiah Dickinson or rather Elisha Graves, his heir, sold it 1799. 1 acre 35 perch for 15 dollars. Begun at N.E corner of John King's pasture, & run E. 6 deg S to highway, 31 rods 7 links; then a road N.E. 4 rods, then by Dickinson's land (West & South) to the first bounds. Parsons still had 8 acres or more —

2 He purchased before this of . . . . . the lot South of his, which had been Benj. Shelldons.

3 Elisha Graves purchased next lot South (Had been Jos. Allens & Moses Allens) of Josiah Dickinson 1799. 7 acres called, $100. King St & heirs of Josiah Parsons N. Robert Breck Esq S. John King in pt. & Joseph Hutchins in pt W. I bought it of E.'s heirs Lee & Dorr (Mrs. Lee lives at West end goes 1½ rods further S. than King St. west gate.)

These three lots fell to Graves' children — all wood & much swamp — not much large timber. Probably 25 acres. Land cuts off some. Front on road called 56 rods on opposite page. North end 31 & 32 Rods. South end 75 rods or 80. West side about 85 rods, or more, & the line just over west side of Swamp. The Swamp continues through the whole 10 to 20 rods wide — Water runs both ways North across road, & South into Pearsons lot. Stoddard &c



Josiah Dickinson bought — No 3 of Elisha Lee of Sheffield for 86 $ 7 acres. 1799 & the says it formerly belong to Moses Allen

Corner — Josiah bought end of E. Graves as above 1799. Same year a Committee of the town sold him 1½ acres. 10 $. at Slough brook Began at N.E. corner of land that had been Josiah Parsons then N. 25. 30' W 19 rods, then W. 27 N. to N.E. corner of land that had been Medad King's, then S. 28 E. to N. side of land laid out to Josiah Parsons, 10 rods ~~from West lot~~. (then on Parsons to first corner)

Josiah Dickinson had previously bought of J. & H. Bullard May 1798 Medad King's Slough Hill Lot 14 acres. for $ 120. — Lt John King & Mr Stoddard's path W. to Hatfield Road N. Josiah Parsons & common E. Having purchased W. to E. as East, our Josiah Parsons north end, & a piece of town's land, he came down to King Street (about 25 rods as called on opposite page) — all now fenced in — has been a cleared field. South line from Stoddard's road to E. end of King St is now about 7 rods — & thence to King St. 31 rods.

No 3. Josiah Dickinson & Samuel Brock had some right to this lot in 1787, & Breck deeded his half to Dickinson 7 a. 25 £ 15.
Josiah Parsons N. highway E. lately John Miller S. Mrs Elizabeth Allen in pt & Enoch Crank W.

Perhaps Miller had bought King lot next north, & Curtis lot north of that about 12 a 13 acres, & then sold off the 8 acres No 4. leaving No 5. 6
Perhaps it was not so. B. A. Edwards & S. Pomeroy's 6 & 7 a. were part of Millers home stead at any rate. The 8 acres is the 17 & 18 rods wide next to woods.

* No 4. was sold to J. Dickinson 1789 by Eleazar Root 55 £. 8 acres. Hatfield Road E. Elisha Allen W. James Hulbert pt [Swamp] and John Millers homelot pt S. and buildings. (John Weir used to live on this lot soon after this sale.

348 King Street & Stoddards Road.

The Jos. Allen Lot on Stoddards Road was sold to Jos. Hutchens by some of the Allens. In 1806 Hez'k. Hutchens sold it to Dr C. L Seeger, 9 acres, for $100. Highway from Blackpole W (Asahel Pomeroy, & James Hulbert S. heirs of Robt Breck W— James Hulbert Jr. & Elisha Graves just E. John King N.

[This apparently came down to Swamp, no further.

James Hulbert sold to C. L Seeger 1805, for $100. 2 acres, in an irregular form. Grantee heirs of Robt Breck E., said heirs of Breck N. Grantee W. & Grantor S & W.

[This was partly Swamp, some upland.

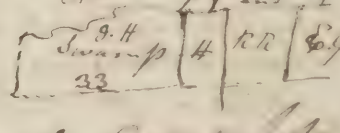
The Allen Lot came down to "brow of hill" according to grant, that is, to a little rise a few rods west of the swamp.

Swamp — comes out of Elisha Graves's [ ] James thro' Breck's 8 acre lot 18 rods wide & then 8½ rods more (narrow in same lot) & between that lot of Breck's, & Hulbert. The 8½ rods had probably been Hulbert's & sold in 2 acres above. (West side of Swamp from Graves to Hulbert is about 29 rods)

Millers lot for 33 rods from South side, that is, his west end is on east side of the swamp. Hulbert had apparently bought all the swamp end of Millers lot, 4 or 5 acres, besides the 8½ rods. This 33 rods of Swamp added to Hulbert is about 25 rods wide at N. end, & about 20 at South end, when it meets the 8 which he bought of Dwight. The 25 rods is not all swamp, but the west line extends along the higher ground — on what was anciently called brow of hill.

Hulberts always ran to Swamps, & here they purchased the whole width of Hulbert's swamp against their land — out North to the Breck lot. It was necessary to get a communication between Seegers Blackpole lot (of Hutchens) & this Millers lot & so bought the 2 acres — in this form somewhat:

(Millers Lot originally called Millers Lionsden.)



S. Damon Bought all that Seeger Owned here, & also Breck lot. but Seeger first sold all to Jona. H. Lyman 1814 calls 26 acres 3 roods 30 rods for $1585.62. King Street E. Heirs of J. H. Lots — 7a. 6a. 9a. 2a — must called 27 acres wanting 10 acres. 7 & 6 a prob 15 or 16. Cost Lyman about 57½ dollars per acre.

Damon mortgaged all this (& Bucklot probably) 1727 Nov. to Belchertown Bank and called it 36 acres.

In 1835 American Bank, Boston, sold all the above (Breck lot & all) to Benj. Barrell & James Hibbens for $965 — King St E. Elisha

6th Lot – Henry Burt had it & a lot on Round hill opposite – built on Round Hill lot & then 1792 had the road turned to west side of his house – his lot then extended across next lot North, near west end, on the hill. Perhaps he purchased or exchanged some with King. This his lot was in shape of an L & included all of hill where Bowers house is. Son Thomas had it – then grandson Henry sold it to Solomon Stoddard between 1780 & 90, 4½ acres. After this Seward Phelps had it – His son Edward Phelps of Whately sold it to Benj. In 1823 Mr Price deeded his right back to the Tappan for 500 dollars – 3½ acres – same bounds.

B. Tappan deeded both lots to Stephen Smith, ~~Aug 1825~~ and in Aug. 1825 Stephen Smith of N.H. sold both lots to H. G. Bowers. 8 acres viz. 4½ Burt lot & 3½ King lot, & ¼ more. Highways E & W. late Abner Lyman S. Only E. L. Seger land N. Price 2500 dollars.

3d & 4th lots came into hands of Jonathan Sheldon – He sold them to ... I know not when. They were divided near the middle & West End of both became a homestead, [illegible] Miller lived there

Elkanah Burt bought it, 5 acres, of Aaron Baker. Son Gains sold it to Shepherds 1803. Simon Wood Edwards N. B. Tappan S. Road W. Rev. S. Williams & John Breck E. – In 1814 Th. f.115
Men born in 1759 (Elkanah) & 1760 (Eli Edwards) recollect when there was no building N.E. of Deac Hunts house – only a board fence through.

Levi Shepherd first traded in Eleazar Bunts store, on S. corner of Bunts lot, near present Brick house of Pres Allen. When he & Doct Hunt went into partnership in 1769, they built a small one story store N.E. of Deac. E. Hunts house & here they traded. After the peace, or in 1783, Doct Hunt (the partnership was dissolved) rebuilt or enlarged this store & made it two stories, hipped roof, the same that was there a few years ago.

Robert Breck first traded in a small red shop on his wife's father's (Jos. Hunts) land, about where present road is to Round Hill is. When he went into partnership with Doct Hunt, they removed the red shop to shop-row near where N. Fowles store is – perhaps below.

Shepherd & Hopkins first traded in Eleazar Bunts shop (about 1769) and afterwards built in shop row near where Mrs Clark, Milliner, now is, or next S.W. of John Clark.

The first barber's shop was at the corner of Shop row & Pleasant Street. [Lwaker – M.10.159.

Oliver Wright had a shop above or below Breck & Hunt. Deac Luther Clark can remember, or thinks he can (born 1767) when there was only one shop below Deac Doct Hunts.

Timo. Dwights shop was on the street a little N. of his house.

Elisha Pomeroy's shop was on present widow Ebenr. Hunts homelot. Elisha Alvord, when he bought it, fitted it up for a house & lived in it & drew out a small shop from somewhere, in which he traded for a while.

Medad King of Westhampton June 23. 1840 -

He says the old Medad King place in King Street (N. of old Dan'l & John King) was built only by his grandfather about 1814 or 5 years ago - say 1736. Rest built afterwards only half the upright about 18 by 20 built then - He and his brother John lived before this lived together (on the old John King lot, now Storrs place) and after this their affairs were all together, & Medad expected John's Property at his decease; but Col. Dwight (who married a sister) prevented John's making a will, & contrived to get most of the property into his own hands. Medad says Col. (in his old age) was addicted to rum. Herbert built the present (Storrs) house on John King's lot. Got underpinning stone on the top of Mount Tom with much difficulty. Sent out to Burnell's Mill Chesterfield, for Clapboards in order to get nice ones - two teams - Medad's father & another — turned over their loads 2 or 3 times a thing very common on new roads in those days. — The lot North of John Kings (Hopkins now) was called a Bridgman lot by Medad's father (but the old King's owned it before Bridgman died.)

Old Daniel King rather rakish in his youth, had child by his wife before marriage & afterwards married her. She a clever woman but rather weak.

Old Eleazar King — do — do — do — do —

Daniel K. was father of one of the children (a girl) of old Mrs. D.
Daniel Pomeroy — — — one or two — — — — — — — — — — Dr. (so said out of rage & make them improbable)

m. 12 p. 314 "Ante-Shepherd-Great-" a pamphlet of 20 pages was published by Andrew Wright in 1811 - exposing the conduct of Charles Shepherd towards him.

Mr. — Ashley first published the Republican Spy here; he was indicted for a libel by the grand jury & left the place in the Spring of 1805. Andrew Wright aided in printing the paper after he left, and June 4. 1805 took the responsibility of the paper on himself. Charles Shepherd directed every thing. In Dec 1805 he was indicted for 3 libels on Gov. Strong - his speculating in Soldiers securities, - his soliciting the Clerk's office for his son (Theodore) — about appointing a Sheriff of Worcester Co. — Wright says 2 first charges were proved - & he was convicted on the last. The pieces were inserted at Shepherd's request, & he wrote two last. The Trial was just before from May term 1806 to Sept 1806, when he was sentenced to 6 months imprisonment, to pay costs & find 2 sureties for good behavior. Parsons Judge. Trial was published. Republicans celebrated March 4, 1800 at Hatfield, while Wright was in prison. He was released at end 1 6 mont, in March 1807 but printing the Spy had been given to another, & it seems that Wright did not take it again. Wright says he had about 1100 subscribers, most of them furnished by posts, who paid him 4/6 to 5/. per annum. All the papers might average 5/. Advertising very trifling - say $83.33 a year. Those two sums make 1000$. Paper cost $500. 2 hands at 6 dolls a week including board $624 — Ink $30. Wood 20$ other articles 50$ — Total expenses $1224.

Graves & Clapp seem to have succeeded: Though Wright worked for Shepherd from April 1809 to Apr 1810. The Gold. & Pittsfield Who defended Wright in the libel case, sued him for between 20 & 30 Dolls & Wright lay in jail 24 days after Sept Court 1810; Gold did pay him. He published his pamphlet after he left this. Anti-Monarchist began 2 years before this - probably early part of 1809.

Judge Hinckley — April 27. 1840

Says his grandfather Job Hinckley settled in Brookfield about 1727, bought a large farm. wife was a Tufts. He was son of a Hinckley who went from Plymouth to Barnstable and settled at Haverhill — Job had 4 sons, viz. Thomas, killed by Indians, John died in West Indies, David killed by Indians, & Samuel lived on old place. Job died about 1760 æt 86. Samuel his son died 1798 æt 67

Samuel Hinckley married Abigail Welsh, she died 1780. Their children were Samuel (born 1757 or 8) Job died æt 24, Abigail John, Elizabeth (died young) Thomas, David, Sarah, Rebekah died æt 75.

Judge Hinckley says he was at Dummer Academy with 30 or 40 others when the battle of Lexington took place — The Academy was broke up — the teacher Master Moody was a great whig — Hinckley came home — his father was so wealthy that he had to furnish a soldier for the army all the time — Young Hinckley engaged for 9 months in 1776 — went to White Plains; when his time was nearly out he was wounded by a cannon ball and lay in the hospital 3 months — was gone about a year — in 1777 entered Yale College and graduated 1781. Came to Northampton same year — was a student in Mr Strong's office — was admitted as a lawyer 1784 — After this, bought the Seth Lyman homestead by advice of Deac Eb^r Hunt. — got married 1786 — old house was propped, & he propped it still more — shingled it — one prop in the room where he lived — he lived in it 12 years.

The only handsome houses in the town in 1781 were. The Dwight house, John Hunt's, Caleb Strong's, Timo. Mather's (built by Pomeroy) Deac. Ebenr. Hunt's all gambrel roofs — he thinks all were painted, but is not certain, & no other painted houses in the town. Deac. Hunt advised him not to buy T. Mathers — said the frogs had been in the cellar ever since it was built & had grown fat. There 5 houses of wine & 4 before the revolution.

m. 15. 286

Judge Hinckley says he was appointed Register of Probate in latter part of 1785, in place of John C. Williams — Williams was intemperate and was in jail, & Porter favored him — & he was kept in though in jail, and Courts were held at the Jail. Hinckley thinks he was in Jail a year or so, while Register.

Judge H. thinks Dr. Hunt's wife was the first who had a carpet on the parlor floor. Some say Mrs. Tappan.

Independence.

Judge Lyman says the first public celebration here was in 1798. Mrs. Lane got it up — made a tea party and had the tables in the meadow near Con River, above the bridge where widow Dickinson owns — D. J. Hubbards. The whole expense was hers. Hr. Jos. Lyman delivered an address (not printed) in Mr. house before they went up to Tea party. The first oration here on this day. There were no orations here previous to this, except some addresses before the Freemasons. June 25th one of which by Gen. Lyman, and one by Dr. Jos. Lyman of Hatfield which offended them. Text "I show unto you a more excellent way."

Mss. 12. 192

Second Tea party 1799 was in the village, & was not at the expense of any one or two, but many contributed.

Tea. Jemima Wright, born 1722 (afterwards wife of Daniel Warner lived some years before marriage at Col. Dwight's (married about 1746) She used to tell her Grandchildren that the first tea in Mass. was sent up to Col. D. by a friend in Boston — it was not called tea, but simply Bohea. They steeped it just as they did herb drink, all at once, and it was so strong that they could not drink it. They afterwards learned how to make it.

Misc. 9 318.

Mr. Hopkins of Hadley. Judge Lyman relates the story about Mr. His dinner at Gov. Strong's on the Sabbath, & the poor's question about his breakfast. Rev. Sheldon wondering on the evening of a Sabbath when Mr Hopkins had preached prayed (in his family) that the Lord would bless the word preached that day, "thou Lord knowest that it needs it, for thy servant Hopkins is a dumb dog."

The Sheldons were enterprising, go ahead men, fond of trading & speculating —

"Silly as Doner" — Judge L. says he used to hear this when young, and Gov. Strong used to tell the story.

Courts at Northampton. Before the revolution there was an attempt to remove the Courts to N. H. Hadley, or Hatfield from Springfield. In discussing the subject, Col. Williams of Hatfield is said to have observed as follows; The people of Hatfield are industrious & thriving, & to have the Courts there would injure their industry & thrift. Northampton people are very religious, & the measure would be injurious to their religion, but Hadley has neither thrift nor morality to be injured. Hadley was then strongly affected greatly demoralized by hard drinking.

Burning of Wm Clark's House.

From Epaphras Clark, who had it from his grandfather Gideon Clark
It was done soon after he came to Northampton – A log house. The
negro fastened outside door so that he could not get out – set it on fire
on outside – He pounded his hands on window, & wife got some out
before they could get out: John was in a cabe, was carried out & laid
by the side of the fence. There was powder in the chamber – & when
it exploded, it blew ridgepole across the road into the lot & stuck it into
the ground. Negro was hung & then burnt on the then Capt Cook
lot, on top of the hill. — Another story that negro was tried
in Boston & punished there.

See below.

The Brook that crosses the road just below Bartlett's gate
seems to have run formerly (before Mill River was turned)
across late Dr Hunts land S. of Mill river and to have turned
S.E. & run down where Mill river now is – or to have turned S.W.
and gone into old Mill River – probably former. The bed of
the brook is easily traced on land which Col Strong has bought
of Dr Hunts heirs – now ploughing up (April 1839) near plot
It begins near upper end of this lot on Mill River.

Burning of Wm Clarks house. (1840.) Accounts that came
thro' Josiah Clark fr. his daughter Pomeroy. It was John
Clark's house which was burnt – not Williams. He had
offended the negro – was not his negro. House was logs. or frame
house with small diamond windows; too small to crawl through.
His brother Samuel discovered the fire, and aided to get the family
out. Negro discovered in Brookfield or Springfield – and Wm
Clark's jackknife. One story that he was quartered here.
A more probable story that he was tried in Boston &
executed – another that he was banished.

More. It was the house of John Clark that was burnt – not Williams
His brother seemed to have a premonition that he must call upon
John that evening, though late – found the house fastened, on fire
on the outside. Negro did not belong to Clark, but Clark &
one of the authority of the town had done something to offend him.
He was taken in Springfield, West side.
From Enquiries of Rev Josiah Clark.

1840. Feb 23. Mr Clark from Uxbridge [illegible] Levi [illegible]
of Simeon Cobb, who told a boy [illegible] that it was John's house
that was burnt when his first child or first son was a babe [illegible]
old. John had a brother who lived near him who discovered the fire
according to some accounts, [illegible] and [illegible] to some accounts.
which awaited him. Negro discovered towards New Haven [illegible]
by the jackknife. Was hung, he says, & was the first execution in this
county [illegible] the first executed by a man from the county. He [illegible]
a white man's house. Wonderful to all.

It is all clear now. John Clark's son Johny was born Dec 1679 &
when he was about a year old, viz in 1681. the burning took place.
Jack the negro was taken to Boston in 1681. The trials at Northampton

Pest House, &c

During the revolution, the old Rust house towards Black pole was used for a pest-house for a time. There was a red flag set up at upper end of Lyman's lane, and another beyond Jona. Phelps, when Blackpole road leaves the other — to warn travellers. This created difficulty with Blackpole people &c.

Also during revolution, pest-house set on Mill river, near the Island.

The pest-house near Com. Prince on Easthampton new road was, some say, used in the old French war.

Phelps House.

Wm Phelps' place at blackpole was narrow in front, 8 or 10 rods & went back in rear of Warner's lot. It was for a time owned by S. Stoddard, & he sold it to Daniel Warner who owned lot West north of it. It had Hulbut E. D. Warner gave a piece of the lot on East end to son Jared, & his widow & now him then, he having built on it.

The old phelps house was two story; & Moses Bartlett was to have it to live in out at Stoddard's meadow. While Stoddard owned Phelps lot, he had the house removed with some difficulty. It was removed by the North road (other too narrow) & then across below die Mill to the meadow, some distance below the upper end of meadow. The woods were cut away to make a path for it, but was left on the flat above the meadow. Bartlett changed his mind, his affairs & the todeland changed, & nothing more was done to the house. It rotted down there. This was about 1785.

Christening. Mrs. B. says, there used to be a great work. was in preparing a dress for christening - for the child. The babe 9.393 was not dressed in a frock but in a blanket plaited & filled on with much l[illegible]. The shirt sleeves were plaited & worked and lace on the edge. Over these sleeves was a pair of short sleeves of silk, that covered the upper part of the arm. On the lower part was a pair of fine white mitts, with lace on the edges. Over the neck & coming down over the blanket was a long bib of fine lawn, with a strip of lace through the middle. It was a great work to dress a babe, in this way, & almost a paper of pins was needed to fix the plaits &c.

Mrs B. says my grandmother Judd had a christening dress of this sort - the blanket of pink silk, the over sleeves of silk, &c. It was sent out to my mother for her first child, but she did not use it. Indeed, these things belonged to the preceding generation & they began to have frocks about this time (1795 &c) such a robe dress was lent to many - my grandmother was used for 'ar them at baptism of Clarissa Pomeroy & Lemuel.)

Mrs. Clark, wife of Deac. Martin, inherited a large estate from her father Noah Clapp, including some rich articles of personal estate. She had a nice silk blanket & other things, used for her when baptized, 20 years before.

Noah Clapp died at Cambridge - was a drover, & down with cattle. Mrs Clark was then 6 months old.

The Mines. Mrs. B. thinks the stamping mill was built in 1770. She used to go across the woods &c to it— crossed the brook on a log. There were 6 hammers that went by water, and broke the ore, or stamped it— wood she thinks faced with iron. Three up & three down. The made it fine. It was then washed in water in such a way that the earthy part washed off & the lead with some mixture remained. This lead was then melted in a furnace kept hot by a bellows. When the hammers were going the noise was heard plainly at her fathers.

There was a log house by the mill — Mr Angel from Europe Germany she thinks, lived in it the father of the Angels in Norwich, &c.

At the mine there was a log house also — a Dutchman, so called, name pronounced Crapes lived in it and Dutchman & his wife — no children. Tho had broken English. He was found dead, she thinks in 1772. Ezekiel Snow afterwards lived in this house

The mines employed many hands; and helped Timo. Emerys and Mai. Clapp's farms. The war put an end to operations.

First School House was built, she thinks, in 1782, on the corner where Babcock lived. It was done by individuals.

In 1782 she kept school 6 weeks in Sam[l] Kingsley's house. After her Martha (Patty) Bartlett kept summer school. A school was kept at Timo. Thayers for a time. 1788 in W.H.

Curson's School

Electa Russel (Edwards, dau of Nathaniel, born 1774) says she went to school to Dorothy Strong, sister of Gov. Strong, in his house when she was 4 years old (1779) standing at her grandfather Bela Strong's, South St. learned her abc. &c. there. Dec. 11 & 18, 1860.

She says Curson had a wife in England – he had a pretended letter from England giving an account of his wife's death, and as it was considerable sorry by carrying in his pocket, he requested her (Electa Edwards) to copy it, which she very innocently did. His object then was to court & marry Betsey Shelden dau. of Benj. He was perhaps 40 years old – was not handsome but gentlemanly in his manners. Betsey rejected him. He opened his school in Hatfield, & then began to court one of his scholars Abigail Barnard, Dau. of Lawyer Saml. Barnard of Deerfield. She declined, but he was amazingly lovesick, threatened to shoot himself, & finally induced her to sign a marriage promise. A great uproar ensued; it was ascertained, or fully believed that his wife in England was not dead; that his letter was pied by E.E. was a forgery of his own. &c. Barnard came down, armed with pistols and said he would shoot Curson – Curson escaped and went to the west. Dr. Lyman took up warmly against him, came to see E.E. & would have prosecuted him, if he could have got at him.

E. E. says they attended to reading, writing, spelling, arithmetic, Morse's Geography, and the boys studied Latin, some of them. A few began to study French, she had a French grammar and a dictionary that cost $5, but did not make great progress. Curson borrowed her Dictionary, & when he went off, carried it with him.

E. E. says Curson & Frye both kept at same time.

Edwd Barnard says his cousin Saml. Barnard did not threaten to shoot Curson and not get pistols, but threatened to cowhide him. Abigail had no idea of marrying Curson. She married a Cleaves from Worcester Co – and she & her father removed to Montgomery, Vermont.

Wife of Dea. Luther Clark born 1795 attended Curson's school some. She mentions studies similar to the others – says they had a small geography – does not speak of the globes. Curson's school house was back of the brick school house. [How does this agree with

Sister Lyman says she & Sally Hall attended Miss Skinner's School at Northampton in fall of 1796 (she was between 14 and 15 years old.) Miss Skinner was sister of Dea. Sumner of Westfield. She taught chiefly embroidery and needlework & worked muslin &c. Sister L. thinks there was a little reading in the school but no writing no spelling no arithmetic – fine & fancy needle work was the object of the school. Sister Lyman boarded at Dea. Shepherds at $1 a week he thinks. Oct 1851.

J. Curson.

J. Curson, doubtless the same as above, had a School in Richmond, Berkshire County, in 1793. Advertised in Stockbridge Star that the Quarterly Exhibition would be March 12. 1794. Performance to begin at 11 o'clock. Tickets 12½ cents each. Next Quarter would begin April 1. 93.

Jona. Curson's School

He was brought out from England by Dr. Shepherd, & began School Sept 13 1784 at 24£ a year and board — in Elisha Alvord's shop

First quarter ended Dec 13. 1784, 2d ended March 13. 1785. 3d June 13. 4th Sept 13. 5th Dec 13. 6th March 13. 1786, & so on. There was a vacancy and in 1787 the terms began about Jan 1. April 1. July 1. &c.

The school seems to have ended in 1788 — Mr Curson did not remain so long. Mr C. had 1st quarter 40/ per month & 25 scholars; 2d quarter 45/ per month, 3. quarter 50/ per month 4th quarter 60/ per month and then were 32 scholars admitted the 4th quarter, of July 13.

A Mr Frye was keeping the school Sept 1785 — probably an assistant

Mr Curson from March 13. 1786 was to have 60£ a year for teaching and board.

1786 Dec 27. Agreed to give Mr Wm. Lyman £ s. 10. 16. to keep the School the next quarter he boarding himself. (He began about Jan. 1. 1787)

School house. They hired a room 3 weeks at first Sept 1784. and then Oct hired Elisha Alvord's shop or 40/ a year. They expended 4£ 12 s. 8 d. to fit up the shop for a school, & laid 3/8½ on each of 25 scholars to pay it.

Curson's board — was 5/ a week, at A Pomeroys, 2. Pomeroys, Dr Hunts, B. Tiffany's
25 scholars paid each 2.7¼ for his board 3 months or 13 weeks 65/.
Mr Frye boarded him 12½ weeks in Oct. Nov. Dec 1785 — perhaps part of September
and 3 weeks before Sept 10. 1785.

After the 4th quarter, viz for the 5th quarter beginning Sept 13. 1785 and after, there were 8 proprietors only, & the expenses were charged 8 to each of these. Each sent or had a right to send 4 scholars. The eight were Caleb Strong, Robert Breck, Quartus Pomeroy, Jeny. Lappan, Josiah Dickinson, Ashel Pomeroy, Levi Shepherd, Ebenr Hunt. They sent each from 2 to 3 loads of wood to the school. £ s. d.

The expenses of 5th quarter were for 8 each 24/8½, or 9. 17. 8. for tuition & board
Mr Frye's board for 12½ weeks was 62/6 — Mr Curson's board 5 weeks 25/
Facts evident from the expence, that only one was paid for services
probably Curson was unwell; & Frye kept for him. Curson remained apparently through the year 1786, & then went to Hatfield and Wm. Lyman succeeded. (right)

The expenses for 1786 were 1. 17. 6 per quarter for each of the 8. for tuition & board
or 7. 10. 0. a year, which makes 60£ — equal to 9/4½ a quarter for each of 32 scholars —

Seems to have been only 3 quarters of school 1787 — expence 77/. 3½ + 30/7. per quarter for 4 scholars

1st quarter of 1788 expence of coal was 30/7½, or £ s. d. 12. 5. 0. for all.
2d quarter of 1788 ended in August — was 8/10 a scholar for 25 scholars £ 11. 0. 10
Thus was ended the proprietors school — had kept 4 years — cost less than £ 60 — was ended & paid. [Charges against School People by Dr Shepard, in 1790 & 1791

Eli Edwards says the house of late Mr Ingalls in Market Street was built by proprietors of this School, — just in the shape it now is. He supposes that Elisha Alvords shop must have been the one in his time — had been Elisha Pomeroys — that the school was kept there while the new house was building.

Dr Shepherd charged Samuel Breck 36/ for schooling his sons 2 quarters, Jan. 4. 1787.

Curson advertised that he should open a school at Hatfield Jan 1. 1787. This was in Dec 1786. Advertised that 2d quarter would begin April 12. 1787. [illegible] an article about English Schoolmasters in Mass. Dec. 30. 1784

Female Schools — from Mrs Luther Hunt, July 5. 1836

Mrs. Hunt was born in 1776. When 4 or 5 years old she went to school one summer to Hannah Parsons daughter of Jacob, at her house; one summer to Rachel Parsons, daughter of Isaac, at his house. After this she went several years to Prudence Parsons, daughter of Josiah, at her father's house (J.P.s) Prudence kept school 10 or 12 summers — not in winter. had 20 or 30 scholars. The price was 6d a week for each scholar. When Mrs H. went to her, they read in the testament, & small ones in the spelling book, & had no other reading books. She does not recollect using a psalter or Dilworth. They spelt also daily, & repeated a portion of the Catechism once a day. Much of the time was spent in sewing — that was an important object of this kind. Miss Prudence had an infirm sister Naomi & on Mondays Prudence had to assist about washing, & Naomi taught the school. [illegible] Mrs H went first to Prudence Parsons

In the mean time Curson from England had a school of boys & girls a private school. When Mrs H. was about 11 years old, say 1787, she attended Curson's school. He was an accomplished man & good scholar but corrupt at heart. He taught reading, spelling, writing, arithmetic, geography, & the languages. Mrs. Hunt says that she & other girls studied geography (Morse's) & arithmetic under Curson. Electa Edwards, daughter of Seth, was a scholar & boarded with Simeon Edwards. She copied a certain letter for Curson about his wife's death. She was less afraid of Curson than some, & he could not manage her. Curson had a large school, some of the time an assistant. After him, Dr. Willard, who studied medicine with Dr Hunt kept the school some time. Mrs. Hunt was also his scholar.

About 1800 or after, Luther Hunt, her husband, kept the town school 2 or 3 years — had 90 scholars & no assistant. He, she thinks, 15 ₶ a month & boarded himself.

Curson boarded sometime at Benj. Shelden's — when Sheldon was absent, he prayed in the family with great fervency & Mrs Sheldon thought him very pious.

Maj. Jonathan Allen was the ... accidents & other ... had been burnt, was rebuilding when bells & guns rang for Hampton battle; they came down in a moment, ... & were soon ready to march or so soon. A. H. thinks the alarm was about 11 o'clock, A. M.

On Friday Jan. 7. 1780 Sett Lyman's sister ... N. H. 2 3.0 alone & took ... Lyman went up Lyman's lane to Cow lane ... Abner Hunt saw them pass some time in the forenoon. They went first to Elm Street & there met Daniel Pomeroy & Elisha Cook who had associated to hunt — the four went on together all on horseback with snow shoes fastened to their saddles. The snow was about 3 feet deep on a level, as it had been falling & drifting some days. (The tithe storm when Solomon Lyman was married was the day before, Jan. 5.) The snow would not bear up the deer but would bear up the men on snow shoes, so it was considered a favorable time to hunt. Broad Brook swamp was a famous place for deer. The four men entered the swamp & sometime in the afternoon the news was spread that Maj. Allen was shot. There was a great search made in the village. Neighbors went out to endeavor to get to him. He was brought nearly to his house with some difficulty & then was obliged to be carried. He was shot on Cecil Dwight's farm, — the bullet ... entered the side of his face. He lived till evening. He was buried on Monday, Jan. 10. ... was much excitement & horror in the town. Some thought Sett Lyman purposely shot him & others thought differently. Lyman was considered rather unsociable & had been offended by Maj. Allen's ... to his son in the army. In February the court examined the Lyman & people became more easy. The Jury of inquest held on the body Jan. 8. attributed no intentional Sup. 395 blame to Sett Lyman —

Elias Hoard — born Sept 1755. — son Rec Oct 11. 1835.

Says his father (mother dead) family removed to Pittsfield in 1777.
The old Hoard homelot in Pittsfield was 16 rods wide & 60 rods deep — one story & two rooms only. Sold it 1786 for 218£ & removed to Hampton in fall of 1786. Bought the Thayer, Rice built house on Thayer's cellar. Thayer's house was not half finished. The grist mill was above the bridge &c. Did not buy the mill, & run in the winter of 1786–7 but not after. It rotted down & fell into the river.

Elias says he lived with his grandfather Nathaniel Strong from 1762 to 1764, or from about 7 to 9 years old. Strong was an excellent man, but petulant & fretful at times — this was called Stubbs, about. His wife was always mild & calm. He had a pasture over Rocky Hill brook & part of this side of brook. Elias to go to the pasture with cows, &c. Was once thrown off the horse in coming down hill near Aldrich end, & ran out by the house, & hanging to the bridle. Col. Pomeroy & others were at work on the bridge. Strong's in spring of '63 or '64 went out to make sugar on or near Col Pomeroy's farm. Hoard went with them to bring back the horses, sons of. No house then on the road but a small one of Col. Pomeroy's, (where Ebenezer Wright lived & Ebenr Turner's then Chapman lives) Samuel Kingsley had a barn up, but no house. When they left Norwich road, had no road — went near where present road is by Deac. Edwards. Then camped at night & lived in a shelter. Noah Strong & Wm Bartlett lived on Col. Pomeroy's farm. Sugar place so near that they called to Col. Strong who was at work in his barn. Norwich road had appearance of common travel, but was only a path in the woods.

Buck, he says, settled in Chesterfield 1762. There was no one south in 1762–3, & a man who came there from Pittsfield on snow shoes brought word that Buck was suffering for provisions. Elijah Root, Noah Strong, Joel Strong & Cossit Allen volunteered & carried provisions to Buck on snow shoes. If Elias is correct Noah Strong did not remain in Chesterfield more than a few months after the winter of 1762–3.

Benjamin Bartlett & Hannah Strong

Nathaniel Edwards 2d son of Nathaniel, attend Yale College & remained there over a year — was sent home for misconduct. Was a ready scholar — one of the first — got his lessons without effort. After this went to school a short time to Mr Dwight in Mass. Was very free with his money, & had plenty of it. Took to drinking, & that was his ruin. He was in college with Caleb Clapp, Alexander Ingraham & Thaddeus Pomeroy, but not in same class. Used to aid them in their lessons.

Medad Edwards son of Nathaniel & Noah Edwards were greedy of gain & buried their father-in-law Benj. Hoard alive, in order to get his property. (Of Table Shelter.) He upbraids his own father Medad as devoid of religion & not eager for the world. This probably correct. He says Shipman Nathaniel was proud & haughty — taught school many years but knew no more than the folks.

Court bound him to recognize in 10.000 £, with 2 sureties in 5000 £ each to appear at the next Superior Court in Northampton on the last Tuesday of April. Six week Lectures. Mrs. Billings of Hatfield says when she was young there was a lecture at Hatfield once in six weeks; & also the same in 6 towns, a lecture in each town every week — which the ministers of the other towns attended. She says the towns of Hadley, Hatfield were four of the towns; — not certain about the 2d.

Mrs Billings remembers well the widow of Rev. Mr. Williams, who was Parsons of Hatfield. She told Mrs. B. that when she was young there were 6 week Lectures — & that she has often travelled to Hatfield on foot to attend the lecture there, & back again the same day.

He himself wore white silk stockings, black satin breeches & vest, & coat embroidered with gold lace about buttonholes, & a wig & cocked hat with gold lace. It was probably his coat of arms. He was a warm whig, & many paid their respects to him here. In his fall visit Maj. Ina. Clapp came in to see him & invited him & others to visit him. Road to Westfield, [Vol. 15. 257.

In Nov. 1747 some of the N.H. people petitioned the county court in regard to this road. They state that the road from the Mill river in Northampton to the top of Sackets hill in Westfield was 40 rods wide; that that width was unnecessary, & they pray that it may be narrowed, and that instead of going round on the west side of Rocky hill, it may go the nearest way to Manhan river, ~~& pass by the house~~ leaving the house of Joseph Wright. A jury of 12 men from Hadley & Hatfield was drawn, & Nath[l] Dwight, Sheriff took the charge of them. They reported their doings Feb. 1747-8. - that the road should be 6 rods wide from Mill river to the top of Sackets hill but at Manhan river to be wider on both sides, so as to bring the cartway & bridge together. (It seems that the bridge was built some rods distant from the old cart way & ford way, probably below, & that they meant to have the road wide enough each side of the river to include both.) The road was to be changed & turn Southerly by or to the left hand, against Nathaniel Clark's land, a little west of Sandy hill brook, & go straight over Rocky Hill by Sergeant Wright's house, the nearest way to Manhan river. Then were some changes on the plain beyond Manhan river but probably within the 40 rods; and about 100 rods before coming to Ebenezer Corse's house, it was to turn southerly & go over Wilton's meadow brook & on to Copley's hill & so to Sackets hill Doings ratified by Court. Expense of jury £4. 19. 0.

In May 1764 ~~about 1762~~ there was a road laid over ~~Clapp's Brook Swamp. Rocky Hill~~, & damages allowed. The town ~~ordered a committee to take~~ previously made a survey measurement. In 1764 Mess[rs] a committee measured the roads to Manhan. They reported that from a rock at top of hill, near Benj. Edwards barn, they measured across Rocky Hill to the place where the old country road comes in, & it was 600 rods. Measured back to rock, on old country road, & it was 721 rods. Then measured an old path between these roads & it was 665 rods. The town appointed a committee to see what was best to be done, & to apply to Court if best. Where was the road of 1747? What was the path or middle road above? It is probable that the road of 1747, ~~if it was made at all~~ went over Rocky Hill, on the top of that ridge a easterly of road over hill. Path went round on west side of hill.

Explanation - From County records & town records. In 1762 the town of Northampton laid a road from Benj. Edwards pasture (where Rocky Hill road turns off) to Shirkshire (Norwich). In 1764 the county began at the same place & laid a road to N. Edwards monument. In 1743, N. Dwight measured the same road to the place where old Westfield road & Park hill road parted. The County road of 1764 went about half a mile in Shirkshire road and on top of hill turned off to the right & down.

Dwights measure 1743. From B. Edwards ~~W. 23° N. 37 rods~~ barn or barn W. 9 rods - W. 23 N. 37 rods to a heap of stones 4 rods beyond Rocky Hill brook - then West 25 S 152 rods - W. 20 S 60½ rods, to the place where old road to Bartlett Mill & Park hill path parted - Distance 258½ rods.

Town measure 1762. From B. Edwards barn W. 22 N. 44 rods, then several courses from 26 to 30 degrees South of West 148 rods - then W. 19 S. 75 rods. (& on S. of West.) Distance 267 rods. Probably ended about the same place with Dwight - only because more courses - might have gone a few rods into Park Hill path. Next to 76 was, it was W. 38 S. yet W. 38 S. 73 W. S. & S. This Distance is 217 rods - "this brings us to old country road." (3 [illegible] at least stones in road at 160 or 170 rods, it was then 300 rods from them to old country road.

Westfield Road

From the place where they struck old country road, they continued on W. 24 S 14 rods, S 8 W. 32 rods, S 14 E 45 rods, S 14 W. 17 rods, S 4 E. 15½ rods, S 3 W. 24½ rods S 9 W 15 rods, S 4 E 17 rods, S 14 E. 24 rods, S 11 E 13 rods, S 19 E. 24½ rods, S 26 E 10 rods S 3 W. 49¾ rods, S 9 W 8 rods, S 9 E. 14 rods to a heap of stones on Westfield road, south side of Clapp's lot, near Nathaniel Edwards monument. Distance 323 rods

The county committee for laying out this road was appointed May 1764— "to lay a road from the Shirkshire Road lately Northampton, to Westfield road near N. Edwards monument." They say they were obliged to run across sundry lots from the place where they left the town road to Shirkshire, across Clapp's Brook Swamp till they came to old road again. They estimated the value of this land in these lots 25/ acre for upland and 35/ for swamp, the road 4 rods wide. They did not know the owners, but gave the width of lots & names of original proprietors from lot No 92 (John Bakers) to lot No 73 inclusive (Mudad Pomroys), also Edgs Hunt. probably road. The width of these lots was called originally 181 rods. called 179 rods by the owners of the road. The county road from the parting of the Shirkshire road to the monument was to be discontinued (that is the road over Rocky hill, &c) from being a county road.

In 1768 same committee made a correction. From the place where new road struck the old country road down to Westfield road at the monument the former to lie on the same ground the town have reserved between their lots, which was ancient country road that was discontinued. ~~only~~ One rod of this road discontinued; that is one rod from the 4 rods width laid in 1764 having 3 only 3 rods.

In 1791 Silas Brown, sr. deeded to his son Silas S. 100 £ consideration, half his homestead in Easthampton; 7½ acres bo— on Highway & Solomon Ferry S. on dividing line between Northampton and Easthampton E. on Eli Brown (other half) N. on highway W. a piece on other side of the road, opposite Eli Browns land, half of 40 rods, called old turnip field).

At same time 1691, he deeded to son Eli Brown, for 100 £ the other half of the homestead — bounded on Silas Brown S. Dividing line of the town E. Obadiah Elsine Jones N. Highway W. 7½ acres — also half of a piece of 40 rods called old Turnip field, on other side of road.

Silas Brown jr. 1792, mortgaged his to S. Hinckley; and in Jany 1798 he deeded his homestead where "he lately lived" to Solomon Ferry Jr. for 726 dollars with buildings. Bounded E. by proprietors land, highway N. on highway part & Ferry in part S. North boundary (really eastern) was crooked around the buildings & near them or near woodhouse corn house & barn & then S.E. to a stake marked T.S. (Thos Star?) near a spring thence to proprietors land. — The same subject to the incumbrance of supporting the meadow gate near Pasconmuck bridge. Rum not given & no common given

Silas Brown Sr. sold some from N. side of homestead on Fort Plain in 1796, to some on Mohawk river

Easthampton in 1796 sold to Solo. Ferry land 20 rods beginning 4 feet from S. Brown, Jr's barn, N.W. corner thence S. to highway on line of Arahel Clark's land; thence N. parallel to highway to a point 8 feet east of N. West corner of said barn thence to first mentioned bounds. (Badly expressed, but seems the corner of land opposite the house of Brown, perhaps not — there was barn on the other side of Street in 1798.
